

# State Reporting Test Setup (Indiana)

Last Modified on 10/22/2022 10:20 am CDT

[TA \(Test Accommodations Report\) Setup](#) | [State Test Standard Codes](#) | [TA Report Results](#)

To accurately collect data for Indiana State Reporting, specific test setup is required. Use the information provided in this document to set up state assessments for the TA (Test Accommodations) Report.

## TA (Test Accommodations Report) Setup

See the [TA \(Test Accommodations Report\)](#) document for additional information about this report.

Students report on the TA if they have a Test Accommodation for a State Coded assessment. Test accommodations are set up on the student's [Test Accommodations](#) tab at Student Information > General > Test Accommodations.

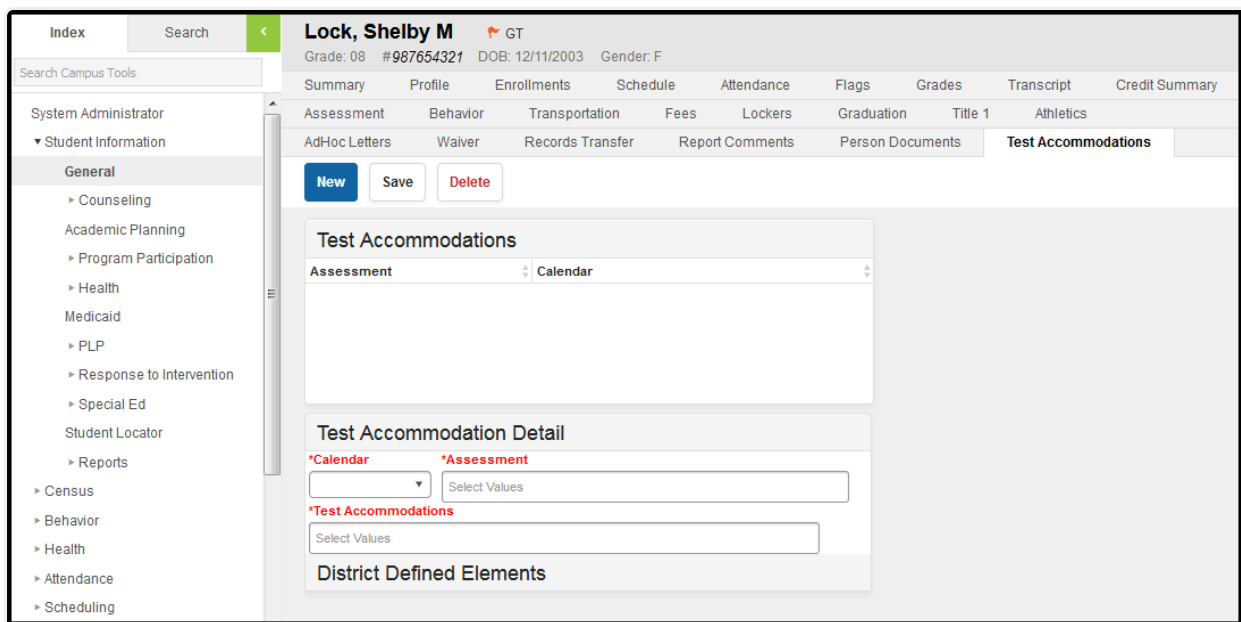

Image 1: Test Accommodations tool

The **Assessment** dropdown is populated based on the assessments established at Assessment > Test Setup.

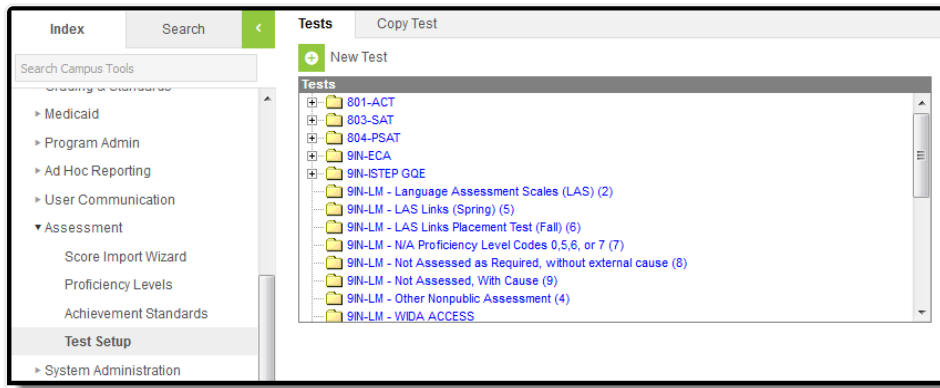

Image 2: Test Setup tool

When adding a **New Test**, mark the State Test option under Test Type. The State Code dropdown is hard-coded with all state accepted test values. The codes that report on the TA are a limited number of these codes.

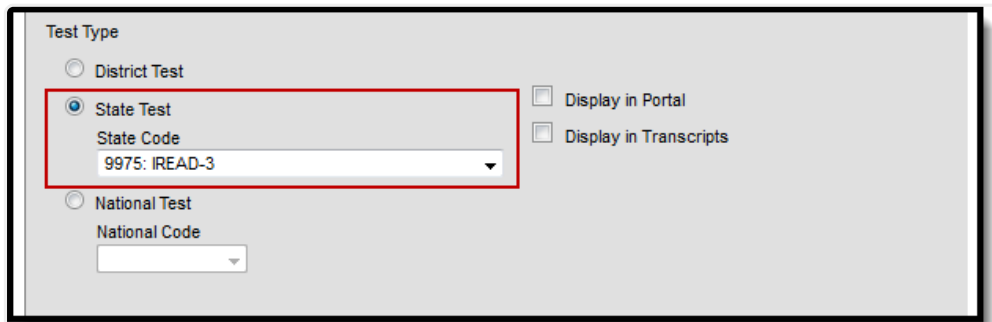

Image 3: State Test Type

A list of TA reported codes can be found at System Administration > Custom > Attribute/Dictionary > Test > State Code. State Codes with a **Standard Code** are reported on the TA.

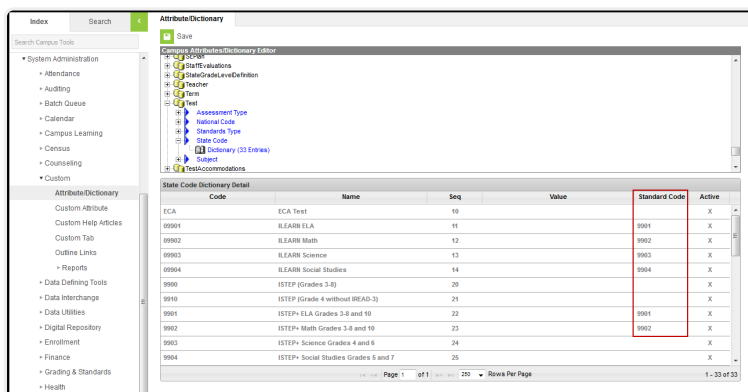

Image 4: State Code Attribute/Dictionary

# State Test Standard Codes

Test Code	Name	Standard Code
09901	ILEARN ELA	9901
09902	ILEARN Math	9902
09903	ILEARN Science	9903
09904	ILEARN Social Studies	9904
9901	ISTEP+ ELA Grades 3-8 and 10	9901
9902	ISTEP+ Math Grades 3-8 and 10	9902
9975	IREAD-3	9975

## TA Report Results

When the TA report is generated, the Accommodations and Test Code fields are directly impacted by the above assessment setup.

Field	Logic
<b>Accommodations</b>	The Accommodation field reports based on the student's Test Accommodations dropdown on the Test Accommodations tab. Only Test Accommodations for state assessments with a Standard Code report.
<b>Test Code</b>	The Test Code populates the 4 digit Standard Code from the Attribute/Dictionary. Only the above <a href="#">State Test Standard Codes</a> report.
