Search Terms: Textbook Opt-Out

The Textbook Opt-Out program allows schools to identify students. with FRAM records, who opt out of the Curricular Material Program. The school/district can create an ad hoc filter to find any students whose application indicates the student/family declined textbook assistance. The Federal/State Program Updater can be used to mass populate the 'Textbook Opt-Out' Program using the ad hoc filter.

> Textbook Opt-Out record dates may not overlap. Users must end date a record before creating a new record. The new record must have a start date that is AFTER the end date of the old record.

> Students are excluded from the Indiana Ed-Fi Data v2.4/3.1 - Student Curricular Material Program Associations if they have a Textbook Opt-Out record containing the following: a date that overlaps with a calendar AND the Opt-Out box is checked.

Indiana Textbook Opt-Out Detail Editor

Start Date

Use this field to enter the date on which the Textbook Opt-Out record for the student was created.
