Report Logic

The following describes report population logic and business rules:

All Reports
Student must have been enrolled during the date range entered in the extract editor.
Calendars, Grades, and Enrollments marked State Exclude will not pull on the report.
Enrollments designated as "No Show" will not be considered in the logic of the report.
Student must be enrolled in Grades 00-12 and Grade 14.
Student may have any Enrollment Service Type as long as the other conditions of the report apply.

Student Participation
The Student Participation report produces a list of students and the number of days they participated within a specified date range.
Student must be scheduled into at least one course marked for attendance.
The extract will produce ONE record of participation days per enrollment.
Students with multiple enrollments in the selected calendars will have multiple rows of data in the report.
Participation Logic • Any positive attendance for the day, count '1' for student participation that day. • In the absence of any positive attendance, if a course scheduled for the day has studentParticipation = 1, count '1' for student participation that day. Else, count '0' for student participation that day.

Aggregate Participation
The Aggregate Participation report produces an aggregate count of students and the number of days they participated within a specified date range.
The extract will produce an aggregate count of participation days per calendar and per district
Multiple enrollments in the district will be added together for a district total, overlapping enrollment dates between calendars will only be counted once.
If students have overlapping enrollment types in the same school calendar count distinct dates per enrollment. • Count all dates in the student's Primary enrollment • Count only distinct dates that do not overlap a Primary enrollment for a Secondary enrollment • Count only distinct dates that do not overlap a Primary or Secondary enrollment for a Special Ed Services enrollment

All Reports

The extract will break out Student Participation by Learning Model during the reporting date range.
- All
- Remote
- Hybrid
- In Person

Students enrolled 100% in Virtual Performance-based courses will only be counted in the 'All' learning model row.

Virtual Participation-Based Students

The Virtual Participation-Based Students report will produce a list of students scheduled 100% into virtual/performance based.

Students enrolled 100% in virtual/performance based courses do not have any courses marked for attendance.

Setup for a V/P class that will report is as follows:
- A class should be set up with the type of "Performance" or "Virtual" (Course Screen)
- The class should NOT be marked for attendance.
- The class should be marked "Active" (Course Screen)
- Virtual and Performance classes are typically scheduled in non-instructional periods (though they do not have to be).

The class must have a grading task and this grading task must include a score group with both passing and failing scores (passing scores are marked "passing score" on the score group).

The extract will produce ONE record of participation days per enrollment.

Students with multiple enrollments in the selected calendars will have multiple rows of data in the report.

Participation Credit will be calculated for VPB Courses

Participation Credit Logic
- Multiple classes can be "skinnied" into a single period. It is not necessary to create separate periods for each V/P class.
- Students must earn a passing grade in the class to receive participation credit.
- Virtual classes have one grade assigned at the end of the course. If the student passes the final grade (chronologically last active transcript-posted grading task on the course), they are given participation credit for the entire course even if earlier term grades are not present or have failed.
  - Districts are instructed to only assign one grade at the end of a class. However, it is allowed to set up interim grades, though they will have no impact on reporting.
- Once credit is earned, students earn participation in the following manner:
  - Participation Credit = 1 for each day the course was scheduled if the student earned a passing grade
  - Participation Credit = 0 for each day the course was scheduled if the student earned a failing grade
- SUM Participation on each date, if the SUM is > 0 the day is counted as 1 for participation

Student Participation

The Student Participation report details a list of students and the number of days they participated within a specified date range.

To Generate the Report:

1. Enter the **Date Range**. Only students scheduled within these days are considered for reporting.
2. Select a **Report Type** of 'Student Participation'.
3. Select the report **Format**.
4. Select which calendars will report data.
5. Select which **Grades** will report data or select an **Ad Hoc Filter** to determine which students are reported.
6. Click **Generate Extract** to generate the report immediately or click **Submit to Batch** to schedule when the system will generate the report.

Data Element Label	Description and Business Rules	GUI Path and Database Field
School Year	Reports the academic year of participation data Concatenate the calendar start year and end year.	Calendar.startYear Calendar.endYear
District Number	Reports the state district number.	System Administration > Resources > District Information > State District Number District.number
District Name	Reports the district name.	System Administration > Resources > District Information> Name District.name
School Number	Reports the location number	System Administration > Resources > School > Location Number School.number
School Name	Reports the School Name	System Administration > Resources > School > Name School.name
State ID	Reports the unique identifier for the student If State Student ID is blank/null, report blank.	Student Information > Demographics > Student State ID Person.stateID
State Grade	Reports the grade level for the student If State Grade is blank/null, report blank.	Census > People > Enrollments > Grade OR Student Information > General > Enrollments > Grade GradeLevel.stateGrade
Last Name	Reports the last name of the student. If Last Name is blank/null, report blank.	Census > People > Last Name Identity.lastName
First Name	Reports the first name of the student. If First Name is blank/null, report blank.	Census > People > First Name Identity.firstName

Data Element Label	Description and Business Rules	GUI Path and Database Field
Gender	Reports the gender of the student. • M = Male • F = Female	Census > People > Demographics > Gender Identity.gender
Race Ethnicity	Reports the federal race/ethnicity of the student. • 1: Hispanic/Latino • 2: American Indian or Alaskan Native • 3: Asian • 4: Black or African American • 5: Native Hawaiian or Other Pacific Islander • 6: White • 7: Two or More Races If Race ID is blank/null, report blank.	Census > People > Identity > Race/Ethnicity Identity.raceEthnicityFed
Economic Status	Reports the FRAM Eligibility for the student at any point during the date range. *Also known as Lunch Code / Economic Indicator / SES.* • A: Non-reimbursable • F: Free • R: Reduced • S: Paid If no FRAM Eligibility Record exists that overlaps the date range, report S.	FRAM > Eligibility > Eligibility POSEligibility.eligibility This logic should pull from the core eligibility value, not 'v_posEligibility StateCode'.
Active SpEd	Reports whether the student had an active, locked IEP during the date range. • Y = Yes • N = No Default to N *Student is considered Active in Special Education if they have an active, locked IEP* that overlaps the date range.	Student Information > Special Ed > Documents Student Information > Special Ed > Documents > IEP > Education Plan > Start Date & End Date Calculated Field Logic checks for a locked, active IEP record, not a particular field.

Data Element Label	Description and Business Rules	GUI Path and Database Field
English Learner	Reports students EL Report **Y** if the student has a Program Status of EL that overlaps the date range. Report **Y** if the student has a Program Status of Exited EL with an EL Exit Date that overlaps the date range. Else, **N**	Student Information > Program Participation > English Learner (EL) > EL > Program Status | EL Exit Date Calculated field.
Program 504	Reports students indicated as Program 504 Report **Y** for Yes, Else report **N**	Student Information > General > Enrollment > State Reporting Fields > 504 Enrollment.section504
Homeless	Reports if student is homeless any time during the date range. Report **Y,** if any homeless record from the same district overlaps the date range. Else report **N**	Student Information > General > Program Participation > Homeless Homeless.StartDate Homeless.EndDate Homeless.DistrictID
Foster Care	Reports if student was in Foster Care any time during the date range. Report **Y,** if any foster care record from the same district overlaps the date range. Else report **N**	Student Information > General > Program Participation > Foster Care FosterCare.StartDate FosterCare.EndDate FosterCare.DisrictID
Gifted Talented	Reports if student was Gifted & Talented at any time during the date range. Primary Talent Pool (Category = 12) is only valid for grades 00-03. Report **Y,** if any gifted record from the same district overlaps the date range **AND** (State Grade is 00-03 and Category = 12) **OR** (State Grade is 04-12 and Category <> 12), Else report **N**	Student Information > General > Program Participation > Gifted & Talented giftedstatusKY.StartDate giftedstatusKY.EndDate giftedstatusKY.Category giftedstatusKY.DisrictID

Migrant	Reports if student was Migrant at any time during the date range. Report **Y,** if any migrant record from the same district overlaps the date range, Else report **N**	Student Information > General > Program Participation > Migrant Migrant. lastQualifyingArrivalDate Migrant. eligibilityExpirationDate Migrant.DisrictID
Military Connected	Reports if student was Military Connected at any time during the date range. Report **Y,** If the student has at least one record in the v_StudentMilitaryConnectionsSummary table overlaps the date range AND Status like '%active duty,%', Else report **N**	Census > People > Military Connections V_StudentMilitaryConnections Summary.StartDate V_StudentMilitaryConnections Summary.EndDate V_StudentMilitaryConnections Summary.DisrictID
Enrollment Type	Reports the student's enrollment type Indicate the type of enrollment. • **P** = Primary • **S** = Partial • **N** = Special Ed Services	Enrollment > Service Type Enrollment.type
Enrollment Start Date	Reports student's Primary enrollment start date When students have more than one Enrollment in the district, report a separate row for each enrollment. Sort by earliest enrollment that overlaps the date range.	Enrollment > Start Date Enrollment.startDate
Enrollment End Date	Reports student's Primary enrollment end date When students have more than one Enrollment in the district, report a separate row for each enrollment.	Enrollment > End Date Enrollment.endDate

Data Element Label	Description and Business Rules	GUI Path and Database Field
Days Scheduled	Counts the number of days scheduled in at least one attendance course during the date range Includes Instructional Days only. Sum of instructional days, with at least one attendance course scheduled, from enrollment start date to enrollment end date, within the date range.	Student Information > General > Enrollment Course > Section > Schedule Enrollment.startDate Enrollment.endDate Day.instructional
Participation Days	Counts the number of days where the student had any positive attendance or confirmed participation.	Student Information > General > Attendance
Non-Participation Days	Counts the number of days where the student had no positive attendance or confirmed participation.	Student Information > General > Attendance
% Participated	Calculates the number of days participated by the number of days scheduled.	Calculated
Total Days Remote	Counts the number of days the student was attending remotely during the date range. Sum of the number of days where students were marked as VP (virtual and present) and VN (virtual and absent) See the Attendance Status Logic section for more information.	Student participation view 'attendedStatus'
Participation Days Remote	Counts the number of remote days with participation during the date range. Sum of the number of days where students were marked as VP (virtual and present). See the Attendance Status Logic section for more information.	Student participation view 'attendedStatus'
Total Days Remote % Participation	Displays the rate of participation on remote days. Total Days Remote / Participation Days Remote	Calculated

Data Element Label	Description and Business Rules	GUI Path and Database Field
Total Days In Person	Counts the number of days the student was attending remotely during the date range. Sum of the number of days where students were marked as PP (physical and present) and PA (physical and absent) See the Attendance Status Logic section for more information.	Student participation view 'attendedStatus'
Participation Days In Person	Counts the number of remote days with participation during the date range. Sum of the number of days where students were marked as PP (physical and present). See the Attendance Status Logic section for more information.	Student participation view 'attendedStatus'
Total Days In Person % Participation	Displays the rate of participation on in person days. Total Days In Person / Participation Days In Person	Calculated
Learning Model for Date Range	Indicate which learning model a student was in during the report date range. Report 'Remote' • If all days within the data range have an attendedStatus of VP or VN Report 'In Person' • If all days within the data range have an attendedStatus of PP or PN Else report 'Hybrid' See the Attendance Status Logic section for more information.	Calculated
Report Date Range	Indicates the date range used to run the report.	N/A
