# Extended School Services Report (Kentucky)

Last Modified on 10/22/2022 10:21 am CDT

Selection Criteria | Report Editor | Generating the Report | Extended School Services Report Layout

**PATH:** *KY State Reporting > Extended School Services Report*

The Extended School Services Report lists all students who receive extended school services within a specific date range and set of calendars.

> As of Release Pack .1717, this report is only available for Kentucky State Edition users of Campus.

# Selection Criteria

Students must meet the following criteria in order to report on the Extended School Services Report:

- The student must have a valid enrollment record for at least part of the Date Range entered on the extract editor.
- The student must have a valid ESS record for at least part of the Date Range entered on the extract editor.
- If the student has multiple ESS records, all records are reported.

# Report Editor

| Editor Field | Description |
|---|---|
| **Date Range** | The date range from which students with a valid enrollment record and ESS record will report for the selected calendar(s). |
| **School Type** | Indicates the type of school the student is enrolled in.<br>• **Regular School** - One record is returned for each student attending regular (non-summer) school.<br>• **Summer School** - One record is returned for each student attending summer school. |
| **Calendar** | The calendar(s) reporting ESS data. |
| **Format** | The format in which the report will generate. Options include *State Format (Fixed Width)*, *CSV* or *HTML*. |

# Generating the Report

1. Enter a **Date Range** in *mmddyyyy* format or by selecting the calendar icons.
2. Select the **School Type.**
    1. **Regular School -** One record is returned for each student attending regular (non-summer) school.
    2. **Summer School -** One record is returned for each student attending summer school.
3. Select the report **Format**. To review data, select *HTML*. For submission to the state, select the *State Format (Fixed Width)*.
4. Select which **Calendar(s)** to report data.
5. To generate the report, select the **Generate Extract** button. The report will appear in the designated format.
