The Kentucky Educational Excellence Scholarship Report is a merit-based scholarship program that is administered by the Kentucky Higher Education Assistance Authority (KHEAA). Students in grades 9-12 may earn a yearly GPA award if they achieve a grade point average (GPA) of 2.5 or higher in any year of high school while meeting the KEES curriculum requirements. In addition, students may earn a KEES bonus award after they have at least one qualifying GPA award if their highest ACT composite score is 15 or higher or a 710 or better on the SAT (critical reading and math) by the date of high school graduation.

To be considered eligible for KEES, a student must:

- Be a United States citizen, national or permanent resident.
- Be a Kentucky resident or maintain legal residence in Kentucky while attending a U.S. Congressional Page school or participating in an approved Foreign Exchange program.
- Be enrolled in a certified Kentucky high school for at least 140 days of the minimum school term.
- Take at least five courses during the academic year, unless the student qualifies as a mid-year graduate.
- Not be a convicted felon.
- Students in grade 14 must have a non-zero cumulative GPA on their transcript.
  - Students in Grade 14 who have a locked IEP with a Special Ed Status of A: Active OR AR: Active Reserved that overlaps the reporting range will not have a zero cumulative GPA based on logic for the Cumulative Grade Point Avg field on the report.

The KEES Report does not perform validations on the eligibility criteria. However, schools may use the Override options for students who do not meet the criteria, if needed.

## KEES GPA

Because the GPA calculation is used in this extract, it is very important to correctly indicate courses as being AP, IB, DC, or CAI where applicable.

The KEES GPA differs from the unweighted Kentucky GPA calculation in the following ways:

- IB (International Baccalaureate) courses receive 1 additional point. A student who achieves an “A” in such a course, for example, will receive  $4.0 + 1.0 = 5.0$  GPA for this course.
- AP (Advanced Placement) courses receive 1 additional point. The example functions the same as IB.
- DC (Dual Credit) courses receive 1 additional point. The example functions the same as AP and IB.
- CAI (Cambridge Advanced International) courses receive 1 additional point. The example functions the same as IB.

## Due Dates

The KEES Report is collected twice a year:

- Students who graduate mid-year are reported by January 15.
- Students who graduate at the end of the school year are reported by June 30.

## KEES Eligibility

Students must meet the following criteria in order to considered KEES eligible:

- Students must have an enrollment in a selected calendar to report however the number of

days enrolled in a Kentucky School for the calendar year will count days in Enrollment records from all calendars in the district (even if they are not selected).

- Count days where a student was enrolled in a KY school
  - Only count Primary Enrollments
  - Count unique days, if overlapping enrollments exist each unique date is only counted once.

## Report Selection Criteria

The KEES report only displays students who meet specific criteria within a chosen calendar (or set of calendars).

- [Spring Graduate](#)
- [Mid-Year Graduates](#)
- [Data Error Report](#)
- [Insufficient Enrollment Report](#)

### Spring Graduate

The KEES Spring Report only displays students who meet the following criteria:

- The student's primary enrollment in the selected calendar must be within the date range specified in the report extract editor OR have one of the following End Status values within the academic year indicated in the Campus toolbar:
  - C01, G01, G02, G03, or G04
- Students must not have the Foreign Exchange checkbox marked on their enrollment.
- Students must not have the Out of State checkbox marked on their enrollment record.
- Students must be assigned state grade levels 8-14 only.
- Students in grade 14 must have a non-zero cumulative GPA on their transcript.

### Mid-Year Graduates

The KEES Mid-Year Graduates Report only displays students who meet the following criteria:

- The student's primary enrollment in the selected calendar must be within the date range specified in the report extract editor OR have one of the following End Status values within the academic year indicated in the Campus toolbar:
  - C01, G01, G02, G03, or G04
- If multiple calendars are selected, report from student's most recent enrollment.
- The option 'Mid-Year Graduate' must be selected from the diploma period drop list of the student's Graduation tab.
- Student must be enrolled in state grade levels 08-14 only.
- Students in grade 14 must have a non-zero cumulative GPA on their transcript.
- The student must not have the Foreign Exchange checkbox marked on their enrollment.
- Students must not have the Out of State checkbox marked on their enrollment record.

### Data Error Report

Students who meet the reporting criteria for the Mid-Year Graduate or Spring Report but do not have vital demographic information entered within Campus will appear in the Data Error Report. Students who have a KEES Override value of N entered on their enrollment record are also included in the Data Error Report.

## Insufficient Enrollment Report

The Insufficient Enrollment Report displays students who qualify for the KEES Spring Report but are not KEES Eligible because they are not enrolled a minimum of 140 days in the district. See the [Insufficient Enrollment Report section](#) below.

# Generating the KEES Report

1. Select the desired **Extract Type**.
  - **Data Error Report** - Indicates students missing vital demographic information or who have a KEES Override value of N.
  - **Spring Report** - Reports demographic information for students actively enrolled in grades 8-12 as well as their mailing addresses.
  - **Mid-Year Graduate Report** - Reports demographic and mailing address information for students actively enrolled in grades 8-12.
  - **Insufficient Enrollment Report** - Reports students who qualify for KEES Spring Reporting but are not KEES Eligible because they are not enrolled a minimum of 140 days in the district.
2. Enter the desired **Date Range**.
3. Select the appropriate **Format**.
4. Select the **Calendars** to include in the report.
5. Select an **Ad Hoc Filter** (optional).
6. Click the **Generate Report** button to view the report immediately. Select **Submit to Batch** to have the report generate in a batch queue. This is especially useful for preventing system performance issues when generating the report for a large set of data.

## Insufficient Enrollment Report

The Insufficient Enrollment Report displays students who qualify for the KEES Spring Report but are not KEES Eligible because they are not enrolled a minimum of 140 days in the district. This report helps districts manually check to see if the student was enrolled in Kentucky schools outside of the district for enough days to qualify as KEES Eligible.

Data Element	Description
<b>District Name</b>	Name of the district the student is enrolled in.
<b>School Name</b>	Name of the school the student is enrolled in.
<b>Last Name</b>	The student's last name.
<b>First Name</b>	The student's first name.
<b>State Code</b>	The student's State ID.
<b>Grade</b>	The student's current grade level.
<b>KEES Eligible Student</b>	Always reports a value of 'N'.
<b>Number of Days Enrolled in the District</b>	The number of unique days the student was enrolled in the district. This must be less than 140 days in order for the student to appear in this report.

## ACT and SAT Score Calculations

The following table describes the logic used to calculate ACT and SAT scores within the KEES Report:

## Test Logic

- ACT** Report the highest composite score that meets the following criteria:
- Test Name = 'ACT' anywhere in the name.
  - Subject = Composite
  - National Test Code = ACT

The Subject attribute is unlocked within Campus. The field displayed for tests created and pushed down from KDE are case sensitive but this report is not. If the Subject Code of 'Composite' is anything else (such as all caps like COMPOSITE) you may not be able to see that in published tests which have a subject of 'Composite'. To correct this issue, update the Code of any Composite Subjects to a value of 'Composite' to ensure they display in published KDE tests.
