**PATH:** *KY State Reporting > Transition Report*

The Transition Report produces a list of all students who have graduated or otherwise completed their secondary education in the prior school year. The report will review the summer enrollment or the current school year to determine if that status has changed based upon credits earned at a summer school program.

**Transition Report**

The Transition Report produces a list of students who have graduated or otherwise completed their secondary education. When a calendar is selected, the report pulls most data from the prior school year (the Minus One Year). For example, if the 15-16 calendar is selected, the report pulls student's enrollment data from the Minus One Year: 14-15.

**Note:** The Transition Report communicates with the State database to provide accurate reporting. Please allow for additional response time when generating this report. The report can only be run in batch mode to allow District-State communication.

For best results, wait for report to return before submitting another report or validation report.

## Student Selection Criteria

The Transition Report includes the following two populations of students:

- Population 1: Students who graduated during the prior school year with diploma types other than GED.
  - State Standard Code for Diploma type must be 1, 2 3 or 5 AND
  - End Status of students final prior enrollment must equal one of the following: G01, G02, G03, G04,

AND

- Diploma date must be on or after the first instructional day of the prior calendar year corresponding to the final enrollment of the prior year and prior to the first instructional day of the current year calendar of the same school. Logic then finds the calendar with earliest instructional day excluding summer school calendars. In cases where the school no longer exists in the current year, use 08/01.
- Population 2: Students who graduated during the prior school year with GED diploma types:
  - State Standard Code for Diploma type must be 4 or 6 AND
  - End Status of students final prior enrollment must equal one of the following W26 or W27 AND
  - Student has a Diploma Date on the Graduation Tab;
    - Diploma Date must be prior to 10/01 of the current year.

Students meeting the following criteria will not report:

- Has an enrollment record(s) for grades other than 07-14.
- Students with enrollment marked State Exclude, in grade levels marked State Exclude or in a calendar marked State Exclude.
- Students marked as foreign Exchange on their enrollment record.
- Students marked Service Type S: Partial and N: Special Ed on their enrollment record.
  - If a student has only S or N enrollments, he/she will not report.
  - If a student has both P: Primary AND S or N enrollments, only the P: Primary enrollments will be considered in report logic.
- Students with an NCO Attendance Group activity at any time during enrollment.
- No Show enrollments are not considered by this report.

In State Edition, students will pull for each district in which they meet the criteria. When run from district edition, the report focuses only on activity within the given district.

The State Standard Code for Diploma Type is found in the Attribute Dictionary as a column (StandardCode) under Student Information > General > Graduation > Diploma Type. The report should be based on the Standard Code which is associated with the diploma type selected for the student.

## Generating the Transition Report

1. Select an **Extract Type**:
  - **Transition** - A list of students who have graduated or otherwise completed their secondary education.
  - **Aggregate Transition** - A report detailing the state or district sum of aggregated data for all selected schools.
  - **Validation Report** - A report detailing any errors or warnings in relation to data generated on the Transition Report.
2. Select the appropriate **Format** for the selected extract type.
3. Select the appropriate **calendar(s)** to include in the report.
  - If all calendars should be selected, mark the **All Calendars** checkbox.
  - If you would like to report data from an inactive school, mark the **Show Inactive Schools** checkbox and select the school.
4. Click the **Submit to Batch** button. The report will be sent to the Batch Queue List found at the bottom of the editor.
5. Once the report has been generated, select the blue **Get report** text found the in the Download column. The report will appear in a separate window in the designated format.
6. If errors or warnings are found in the data, that information will appear first. To continue generation of the actual report, select the **Click Here** button at the top of the errors/warnings page to generate the report.
