Infinite Campus

## **Tool Rights**

Users must have at least **R**(ead) tool rights in order to generate the Student Exit Report (Image 2).

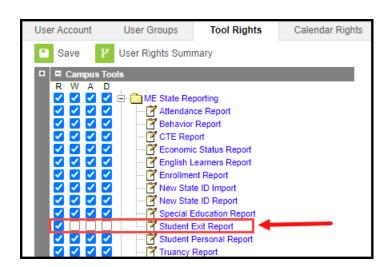

Image 2: Student Exit Report Tool Rights

### **Report Logic**

ampus

Logic determines the report population as follows:

- Report a record for *each* enrollment record associated with the Calendar(s) selected in the extract editor where the student has an enrollment end date that is <= extract editor effective date
  - Students with enrollment records marked State Exclude are excluded from reporting.
  - Students with enrollment records marked No Show are excluded from reporting.
  - Students in Grade Levels marked Exclude from state reporting are excluded from reporting.
  - Students in calendars marked Exclude are excluded from reporting.
- Enrollment records with a Start Date that is greater than the Effective Date entered on the extract editor are not included.

## **Generating the Extract**

- 1. Enter the Effective Date. Only enrollment records with a Start Date greater than this date and in the selected calendar(s) are included.
- 2. Select which State Grade Levels will report data.
- 3. Select which **Calendar(s)** will report data.
- 4. Select the report Format. For submission to the state, select the CSV (State Format).
- 5. To further narrow results, select an **Ad Hoc Filter** (optional).
- 6. Decide if you want to generate the report or send the report to the state:

GenerateClick the Generate Report button to immediately generate the report. The<br/>report will appear in a separate window in the designated format.

| Submit<br>to Batch | Clicking the <b>Submit to Batch</b> button to send the extract to the Batch Queue<br>List. Batch Queue functionality provides the ability to schedule when the<br>extract is generated and allows users to navigate away from the Student Exit<br>Report editor while the extract is being built. The Batch Queue List also lets<br>users view and access historical Special Education Reports which were run<br>through the Batch Queue tool.  |
|--------------------|---|
|                    | ■ Batch Queue List          Refresh       Show top       50       ▼       tasks submitted between       10/23/2018       Image: Completed C |
| Send to<br>State   | Clicking the <b>Send to State</b> button will send the report data to the state<br>system (Synergy). Reports sent to the state will appear in the Web Service<br>Queue List where you can view its current status (Status), view all data sent<br>to the state (View Submission), and review any errors returned from the state<br>(View Result).   |
|                    | ■       Web Service Queue List         Refresh       Show top       50       vuploaded between       10/23/2018       and       10/30/2018         Web Service Queue List       Queued Time       Report Title       Status       Download       Action         2018-10-30       14:13:00.0       ME Attendance Report       Complete       View Submission       View Result   |
|                    | This functionality requires proper Web Service Account and Web Service Configuration setup.   |

Below is an example of a the generated report:

# **Understanding the Student Exit Report**

Use the table below to better understand what each report column means and how it reports data.

| Column                 | Description  | Format<br>and<br>Length | Database Location | Campus GUI<br>Location  |
|------------------------|--|-------------------------|-------------------|---|
| SAUID                  | Logic reports the<br>District Number<br>associated with the<br>student's enrollment<br>record. | Numeric, 4<br>digits    | District.number   | System<br>Administration<br>> Resources<br>> District Info<br>> State<br>District<br>Number |
| State<br>Student<br>ID | Logic reports the<br>Student State ID of the<br>student.                                       | Numeric, 9<br>digits    | Person.stateID    | Census ><br>Demographics<br>> Student<br>State ID   |
| School<br>ID           | Logic reports the<br>School Number<br>associated with the<br>student's enrollment<br>record.   | Numeric, 4<br>digits    | School.number     | System<br>Administration<br>> Resources<br>> School ><br>School<br>Number                   |

| Column               | Description   | Format<br>and<br>Length             | Database Location                          | Campus GUI<br>Location   |
|----------------------|---|-------------------------------------|--|--|
| Year<br>Code         | Logic reports the<br>school year by<br>concatenating the Start<br>Year and End Year of<br>the School Year<br>associated with the<br>student' enrollment<br>record with a hyphen<br>(for example, 2017-<br>2018).  | Datefield,<br>9 digits<br>YYYY-YYYY | SchoolYear.startYear<br>SchoolYear.endYear | System<br>Administration<br>> Calendar ><br>School Years   |
| Effective<br>Date    | The Start Date of the reporting enrollment record.  | Datefield,<br>8 digits<br>YYYYMMDD  | Enrollment.startDate                       | Student<br>Information ><br>General ><br>Enrollments ><br>General<br>Enrollment<br>Information ><br>Start Date |
| Exit<br>Type<br>Code | Reason student left the<br>school. Through<br>graduation, expulsion,<br>transfer, etc.<br>If all of the following<br>are true, report<br>Enrollment <b>End</b><br><b>Status</b> dictionary<br><b>Standard Code</b><br>1. Enrollment <b>End</b><br><b>Status</b> <> 99<br>2. Enrollment <b>End</b><br><b>Date</b> <= Extract<br>Editor <b>Effective</b><br><b>Date</b> | 5<br>characters                     | Enrollment.endStatus                       | Student<br>Information ><br>General ><br>Enrollments ><br>General<br>Enrollment<br>Information ><br>End Status |

| Column    | Description  | Format<br>and<br>Length            | Database Location  | Campus GUI<br>Location   |
|-----------|--|------------------------------------|--------------------|--|
| Exit Date | The date when student<br>exited the school.<br>1. If all of the<br>following are true,<br>report Enrollment<br><b>End Date</b><br>1. Enrollment<br><b>End Status</b><br><> 99<br>2. Enrollment<br><b>End Date</b><br><= Extract<br>Editor<br><b>Effective</b><br><b>Date</b><br>2. Else, report Null | Datefield,<br>8 digits<br>YYYYMMDD | Enrollment.endDate | Student<br>Information ><br>General ><br>Enrollments ><br>General<br>Enrollment<br>Information ><br>End Date |
