

Assessment Status Calculation Tool (Maryland)

Last Modified on 10/22/2022 10:23 am CDT

[Report Logic](#) | [Assessment Calculations](#) | [Report Editor](#) | [Calculate Assessment Statuses](#) | [Calculated Assessment Results Records Layout](#)

Classic View: MD State Reporting > Assessment Status Calculation Tool

Search Terms: Assessment Status Calculation Tool

Use the Assessment Status Calculation Tool to calculate Assessment Statuses for assessments that report in the [HSDC \(High School Data Collection\)](#) and [Student Record Card 3](#).

Run the Assessment Status Calculation tool BEFORE generating the the [HSDC \(High School Data Collection\)](#) and [Student Record Card 3](#).

This tool calculates the assessments reported in the HSDC and Student Record Card 3 reports and stores Assessment status values in the Calculated Assessment Status tab (Student Information > General > Calculated Assessment Statuses). The Assessment Status Calculator tool determines whether the student took one of the following assessments and calculates the status of these assessments: MHS A Math, MHS A ELA, MHS A Science, and MHS A Government. Two custom stored GPAs, **HSDC Unweighted GPA** and **CCR Unweighted GPA** calculate each time this tool is run and display in the individual students' [Calculated Assessment Statuses](#) tab.

Assessment Status Calculation Tool ☆

Assessment Status Calculation Tool

This tool calculates assessments reported in the HSDC and Student Record Card 3 Reports. Once run, data from this tool is stored in the Calculated Assessment Statuses tab for retrieval by those reports.

The Assessment Status Calculation Tool determines whether the student took specific assessments and the status of those assessments. Two custom stored GPAs, 'HSDC Unweighted GPA' and 'CCR Unweighted GPA' calculate each time this tool is run and display results in the individual students' Calculated Assessment Statuses tab.

Each time the Assessment Status Calculation Tool is run, all existing values in the database are overwritten.

The Second Semester Start Date is used to identify 16: Second Semester Transfer Students. If left blank, that status is not calculated.

This is a very complex tool. For best performance, please try to limit the number of schools or students run per batch or consider using the Submit to Batch button.

Report Logic

- The Assessment Status Calculation Tool calculates based on the options you select on the extract editor.
- Students with an active enrollment in the selected calendar during the calendar year are updated.
- When a student has multiple assessments that meet the calculation criteria, the tool only

updates the student one time.

Campus Maintained Custom Unweighted GPA Logic

- The number of decimal places is set up in System Administration > Preferences > System Preferences > # of Significant GPA Decimal Places
- Each time the Assessment Status Calculation tool runs, results overwrite previous data.
- ESOL courses are identified on the Course > Department = ESOL
- Both of the following calculations look at the latest enrollment in the selected calendar(s).
- **HSDC Custom Unweighted GPA** calculation logic:
 - ESOL courses are included
 - Calculation includes scores in a student's transcript for courses related to grade level enrollments 9, 10, 11, or 12
- **CCR Custom Unweighted GPA** calculation logic:
 - Students whose current grade level is 11 or 12
 - Excludes ESOL courses
 - Excludes transcript records for a course if it is earned in the 12th grade
 - Scores in a student's transcript for courses related to grade level enrollments 9, 10, 11 are included
 - Reports blank for students in grades 9, 10

Assessment Status Calculation

The Assessment Status Calculation Tool process saves the following assessment statuses on the Calculated Assessment Status tab.

If the student...	Then this assessment status is saved...
does not have a qualifying assessment	30: Not Taken
has a passing score on the assessment	10: Passed
does not have a status of 10 AND their Diploma Type on the Graduation Tab \neq 02 AND has a Bridge Program for the Assessment subject (Algebra, ELA, Biology, Government) where the Project Status = Met	12: Completed Bridge Program

If the student...	Then this assessment status is saved...
does not have a status of 10 or 12 AND their Diploma Type on the Graduation Tab \neq 02 AND <ul style="list-style-type: none"> • has an assessment with a Waiver code aligned to a Standard Code of AS15 on any assessment with the same Subject Code OR • has an Assessment with a Waiver code aligned to a Standard Code of AS17 on any assessment with the same Subject Code 	17: Waiver OR 15: Course Credit
does not have a status of 10, 12, 15, or 17 AND the student is a certificate of completion student OR Student has a Waiver with the standard code AS18 on any assessment with the same Subject Code	18: Not Required for Graduation-
does not have a status of 10, 12, 15, 17 or 18 AND the student's first enrollment start date in the selected calendars is on or after the Second Semester Start Date in the extract editor	16: Second Semester Transfer
does not have a status of 10, 12, 15, 17, 18 or 16 AND the student has a failing score on the assessment	31: Failed

CCR Math Status Calculation

Step	Action	Campus Interface
1	Campus determines if the student is in Grade 11 or 12. <ul style="list-style-type: none"> • If no, Not Met reports for 11th Grade CCR – Math • If yes, continue the calculation. 	Student Information > General > Enrollments > State Grade Level
2	Campus determines the year the student is in Grade 11. Assessments and courses <ul style="list-style-type: none"> • on and after the student's earliest 12th grade entry date are excluded. • after the extract editor Effective Date are excluded. 	Student Information > General > Enrollments > State Grade Level > End Year

Step	Action	Campus Interface
3	<p>If the student has a cumulative, unweighted high school GPA of 3.0 or higher (excluding ESOL courses) at the end of 11th grade year, then the student has met the 11th Grade CCR Math requirements and Y reports.</p> <p>If the student does not meet these requirements, continue the calculation.</p>	<p>Student Information > Transcript > School Yr End Date</p> <hr/> <p>Calculation using Custom Campus CCR Unweighted GPA Calculation</p> <p>Student Information > General > Calculated Assessment Statuses > CCR Unweighted GPA</p> <p>Student Information > General > Calculated Assessment Statuses > 11th Grade CCR Math Status</p>
4	<p>If the student attempted to earn credit from a college credit bearing math course, Met reports.</p> <ul style="list-style-type: none"> • Grade level when course was taken - 9, 10, or 11 • State Code - 1200 • Credit Value - Greater than 0 • SCED Course Level - DE • SCED Available Credit (Carnegie Units) - Greater than 0 <p>If the student does not meet these requirements, continue the calculation.</p>	<p>Student Information > Transcript</p>

Report Editor

Field	Description
Effective Date	To report, students must have an Enrollment Start Date that is on or before the date selected in this field. The default date is June 30 of the current school year but can be changed.
Second Semester Start Date	The Second Semester Start Date is used to identify 16: Second Semester Transfer Students. If left blank, that status is not calculated. Each time the Reported Assessment Calculator function is run, all existing values in the database for the Calculated Assessment Status tab are overwritten. You can overwrite the calculated assessment status values manually in the custom tab or via the Assessment Status Override tool. The Calculated Assessment Status tab should be updated prior to generating HSDC or Student Record Card 3.
Format	The format in which Campus will create the report. Options include HTML and CSV.
Assessment To Calculate	Select assessment(s) to calculate.
Select Students	Select students by choosing one or more grade levels or a saved ad hoc filter. <ul style="list-style-type: none"> • Grade - Only grade levels from schools active in the selected calendars display. Only students in the selected grade levels report if they meet the reporting requirements. • Ad Hoc Filter - Only those students included in the filter report if they meet the reporting requirements.
Select Calendar(s)	The calendar(s) from which data is pulled for the report.
Run/Submit to Batch	Users have the option of submitting the report request to the batch queue by clicking Submit to Batch instead of Run . This process allows larger reports to be created in the background without disrupting the use of Campus. For more information about submitting a report to the batch queue, see the Batch Queue article. A Calculated Assessment Results report.

Calculate Assessment Statuses

1. Enter the **Effective Date**.
2. Select the **Students** and **Calendars** for which you want to calculate Assessment Statuses.
3. Enter the Second Semester Start Date.
Note: This is used to identify 16: Second Semester Transfer Students. If left blank, that status is not calculated.
4. Select the format in which the report will be created. Options include HTML and CSV.
5. Click **Run** or **Submit to Batch**.

Result: Campus calculates the Assessment Status, stores the Assessment Status on the Calculated Assessment Statuses tab, and creates the Calculated Assessment Results Records report.

Calculated Assessment Results Records Layout

Element	Description	Location						
LEA Number	The two-digit state designation of the local education agency. Alphanumeric, 2 characters	System Administration > Resources > District Information > State District Number						
School Number	<p>The code assigned to the school building. The home school number from the student's enrollment reports.</p> <table border="1"> <thead> <tr> <th>If...</th> <th>Then...</th> </tr> </thead> <tbody> <tr> <td>the school tied to the student's enrollment is a type of 99</td> <td>the school number from the resident school field on the student's enrollment reports.</td> </tr> <tr> <td>the Home School field is null</td> <td>the school tied to the enrollment reports</td> </tr> </tbody> </table> <p>Alphanumeric, 4 characters</p>	If...
