[General Enrollment Information](#) | [State Reporting Fields](#)

**Classic View:** [Student Information](#) > [Enrollments](#)

**Search Terms:** [Enrollment](#)

The Enrollment tab displays all occurrences of a student’s enrollment in the district. Because this is an historical view, this list could be long.

By default, enrollments are first sorted by grade level and sorted by enrollment start date second. To reorder the list of enrollments, click the blue headers in the Enrollments Editor list. The list of enrollments can be sorted by Grade, Calendar, Start Date or End Date.

Under General Enrollment Information, some fields are specific to the state of Michigan. These fields are further described below. All other fields in General Enrollment Information do not require unique, state-specific data. However, many of these fields are required and data entry in these fields is necessary. For more information on these fields, see the [Enrollments](#) article.

## Local Start Status

Start Status indicates the reason for beginning the student enrollment, whether entering the school or district or continuing on from another grade. When creating an enrollment for a student, students must have a Start Date and a Start Status. An enrollment cannot be saved without an entry in these fields.

▶ [Click here to expand...](#)

## Start Date

The date on which the student's enrollment began.

▶ [Click here to expand...](#)

## Local End Status

The End Status indicates the reason a prior year student in grade 7-12 has not enrolled in the district during the current school year. All students with an end-dated enrollment must also have an End Status assigned to the end-dated enrollment. Users are not allowed to save an end-dated enrollment without an assigned End Status. However, this condition does not apply if the No Show checkbox is marked. If the No Show checkbox is marked, you can enter an End Status without an End Date.

## End Date

The date on which the student's enrollment ended.

▶ [Click here to expand...](#)

## No Show

A no show student is defined as a student who is enrolled in the school but never attends class and does not officially withdraw from the school. These enrollment records are ended after a certain number of school days, depending on district and/or state policy.

## Service Type

The Service Type is used to indicate the type of enrollment and the intended service the student receives. Service Types include: (P) Primary, (S) Partial, and (N) Special Ed Services.

## State Reporting Fields

Data entries made in the State Reporting Fields section of the Enrollments tab are unique to the state of Michigan and may directly affect the way students are reported to the state department of education.

Updates to State Reporting fields WILL overwrite previously entered data. To preserve this historical information, create a new Enrollment record when changes are needed. Deleting an Enrollment record is NOT recommended.

## Early Reading Deficiency Fields

Use the Early Reading Deficiency fields to indicate reading deficiencies in the student. If a reading deficiency was identified for the student at any time during the school year, mark the checkbox. Leave the field blank if there were no identified reading deficiencies.

If a reading deficiency still exists for the student at the end of the current school year, mark the checkbox. Leave the field blank if reading deficiencies no longer exist for the student.

**Early Reading Deficiency**
