

Minnesota Ed-Fi v3.1 - Student Homeless Program Associations Resource Preferences

Last Modified on 10/22/2022 10:25 am CDT

Classic View: System Administration > Ed-Fi

Search Terms: Ed-Fi

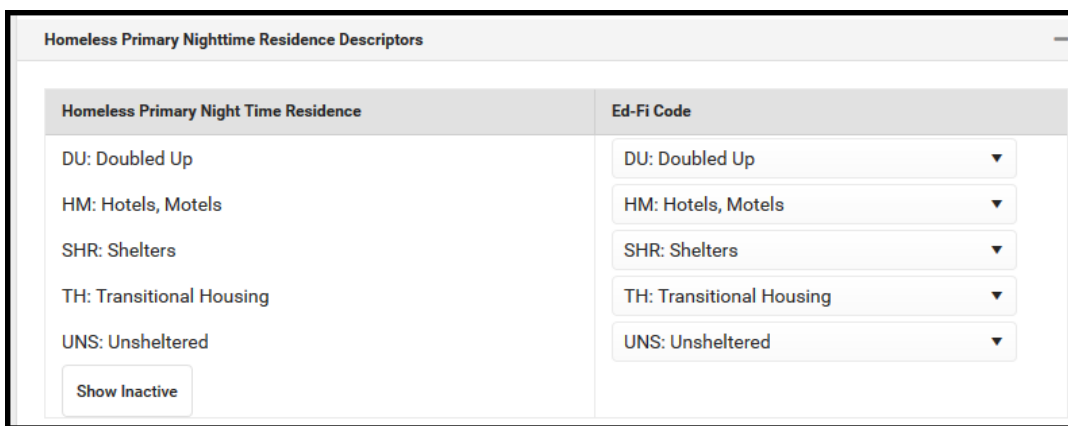

The Ed-Fi Configuration tool is used to establish Ed-Fi data resources.

The following describes how to set the resource preferences for the Student Homeless Program Associations resource. If the Configure or Edit buttons do not display, then the resource does not need to be mapped and the toggle button can be used to turn the resource on or off.

If a mapping is changed, a resync must be performed on the resource in order for the new mappings to send correctly. Any item not mapped will not report to Ed-Fi.
