Minnesota Ed-Fi v3.1 - Student Education Organization Association Resource Preferences

Last Modified on 10/22/2022 10:25 am CDT

Classic View: System Administration > Ed-Fi

Search Terms: Ed-Fi

The Ed-Fi Configuration tool is used to establish Ed-Fi data resources.

The following describes how to set the resource preferences for the Student Education Organization Association resource. If the Configure or Edit buttons do not display, then the resource does not need to be mapped and the toggle button can be used to turn the resource on or off.

 If a mapping is changed, a resync must be performed on the resource in order for the new mappings to send correctly. Any item not mapped will not report to Ed-Fi.

1. Indicate if the resource should report Legal Identities.

2. Set the Student Education Organization Association Descriptors:

Primary Learning Device Access Descriptors: Indicates whether the student shares the device with anyone else in the household.

Digital Equity Primary Device Access	
Attribute Dictionary	System Administration > Custom > Attribute/Dictionary > Digital Equity
UI Location	Student Information > Program Participation > State Programs > Digital Equity

Primary Learning Device Provider Descriptors: Indicates if the primary learning device is a personal device or a school provided device.

Digital Equity Primary Learning Device Provider	
Attribute Dictionary	System Administration > Custom > Attribute/Dictionary > Digital Equity
UI Location	Student Information > Program Participation > State Programs > Digital Equity

Digital Device Descriptors: Indicates the type of device the student most often uses to complete school work at home.

Digital Equity Primary Digital Device	
Attribute Dictionary	System Administration > Custom > Attribute/Dictionary > Digital Equity
UI Location	Student Information > Program Participation > State Programs > Digital Equity

Race Descriptors: The general racial category which most clearly reflects the individual's recognition of his or her community or with which the individual most identifies.

Race Descriptors	
Attribute Dictionary	System Administration > Custom > Attribute/Dictionary > Identity > Race/Ethnicity
UI Location	Census > People > Identities

Student Language Override: The language the individual uses to communicate.

The Student Language Override mapping only needs to be populated if the code does not match a code that is in the Ed-Fi Code list.

Student Language Overrides	
UI Location	Census > People > Identities

Ancestry Ethnic Origin Descriptors: The general category which most clearly reflects the individual's recognition of his or her ethnic ancestry.

Identity Race Subcategory	
Attribute Dictionary	System Administration > Custom > Attribute/Dictionary > Identity > Race Subcategory
UI Location	Census > People > Identities
