The Ed-Fi Configuration tool is used to establish Ed-Fi data resources.

The following describes how to enable the Class Periods resource for Ed-Fi reporting:

1. Select the appropriate time periods and class period type descriptors for each school. The Filter option at the top of the section can be used to filter by school, calendar, schedule structure, and/or period schedule. The various filter fields determine which information displays. The Fill options can be used to fill the time period and class period type descriptor value fields based on the schools/calendars/schedule structures/period schedules that have been scoped in the Filter area.

Filter	Description
School	Used to filter by school.
Calendars	Used to filter by calendar.
Schedule Structures	Used to filter by schedule structure.
Period Schedules	Used to filter by period schedule.
Reset Filters	Clears the filter fields. Displays once information has been entered in the filter fields.

Fill	Description
Start Time	The start time of the class period type.
End Time	The end time of the class period type.
Class Period Type Descriptor	The class period type. Options are AS: After School, BS: Before School, and ES: Evening School

Fill	Description
Fill	The selected values will be populated for the schools/calendars/schedule structures/period schedules that have been scoped in the Filter area.
Clear	The values will be cleared for the schools/calendars/schedule structures/period schedules that have been scoped in the Filter area.
