Object Triggering Logic

This table describes logic for triggering syncing of this object.

Action	Trigger

Post	When a new enrollment is saved for a student, and the Special Ed Setting (Enrollment.specialEdStatus) droplist has a value of '8'. A record reports for each distinct enrollment in a School and Enrollment Start Date.
	• The CEIS Program record must have either a NULL Schools droplist value, or one that matches the school the enrollment is tied to.
	• When a student has two enrollments in the same School, Calendar & Schedule Structure with the same start date, report from the enrollment service type in the following order:
	  1. P: Primary Enrollment
	  2. S: Partial/Ancillary
	  3. N: Special Ed Services
	• When an enrollment with a higher priority is deleted, the enrollment with lower priority will post a new record.
	• Do not send records if the Calendar Exclude check box is checked in the calendar the student is enrolled.
	• Do not send records if the School Exclude check box is checked in the calendar the student is enrolled.
	• Do not send a record if the No Show check box is checked.
	• When the CEIS Program record's Schools droplist was previously tied to a different school, but the Schools droplist is updated to point to a new school that the student has a reportable enrollment with.
	• Do not send records if the Calendar Grade Level "Exclude from State Reporting" checkbox is selected for the grade level that the student's enrollment is tied to.

Put	When the start date for an enrollment is changed. • When an enrollment with a lower priority is changed, data will not send. • When an enrollment is updated for a student. • When a student's Resident District or Service District fields are changed.
Delete	When an enrollment is deleted. • When a student has two enrollments in the same school for the same start date, records with lower priority will not trigger a delete. • When the No Show check box is checked. • When the start date of an enrollment is changed. • When the CEIS Program record's Schools droplist is updated so that it no longer matches any of the schools the student is enrolled in during the program record.
