Object Triggering Logic

This table describes logic for triggering syncing of this object.

Action	Trigger
Post	When a new enrollment is saved for a student, and there is a PSEO Concurrent record saved that overlaps the enrollment record. - The PSEO Concurrent Program record must have either a NULL Schools droplist value, or one that matches the school the enrollment is tied to. - When a student has two enrollments in the same School, Calendar & Schedule Structure with the same start date, report from the enrollment service type in the following order: - P: Primary Enrollment - S: Partial/Ancillary - N: Special Ed Services - When an enrollment with a higher priority is deleted, the enrollment with lower priority will post a new record. - Do not send records if the Calendar Exclude check box is checked in the calendar the student is enrolled. - Do not send records if the School Exclude check box is checked in the calendar the student is enrolled. - Do not send a record if the No Show check box is checked. - When a new reportable PSEO Concurrent record is saved for a student, and there is a reportable enrollment record that overlaps the reportable PSEO Concurrent record. - When the reportable PSEO Concurrent record's Start Date or End Date are updated so that they newly overlap a reportable enrollment record. - When the Enrollment record's Start Date or End Date are updated so that they newly longer overlap a reportable PSEO Concurrent record. - When the PSEO Concurrent Program record's Schools droplist was previously tied to a different school, but the Schools droplist is updated to point to a new school that the student has a reportable enrollment with. - Do not send records if the Calendar Grade Level "Exclude from State Reporting" checkbox is selected for the grade level that the student's enrollment is tied to.
Put	When the start date for an enrollment is changed. When an enrollment with a lower priority is changed, data will not send.
Put	When an enrollment is updated for a student. When the PSEO Concurrent record is updated for a student.

Action	Trigger
Delete	When an enrollment is deleted. • When a student has two enrollments in the same school for the same start date, records with lower priority will not trigger a delete. • When the No Show check box is checked. • When the reportable PSEO Concurrent record is deleted. • When the PSEO Concurrent Program record's Start Date or End Date are updated so that they no longer overlap a reportable enrollment record. • When the Enrollment record's Start Date or End Date are updated so that they no longer overlap an PSEO Concurrent Program record. • When the PSEO Concurrent Program record's Schools droplist is updated so that it no longer matches any of the schools the student is enrolled in during the program record
