# Annual Immunization Report

Last Modified on 10/22/2022 10:27 am CDT

Report Logic | Generate the Annual Immunization Report

**Classic Path:** Health > Reports > Annual Immunization

**Search Terms:** Annual Immunization

The Annual Immunization Report summarizes the students enrolled in the selected school and provides a total number of students that have immunizations for DTP, Polio, MMR and other standard immunizations.

> In order for the report to generate, all individuals included in the report must have a birth date entered on their Identity record.

# Report Logic

Data in this report is pulled from the student's immunization information. State compliancies are also used in this report to determine if the student is up-to-date with immunizations.

Effective Date is required. Data reported indicates the level of compliance as of the date entered.

> Students report as Exempt if they have an exemption code of M: Medical on the Immunizations tab. See the Immunizations article for additional information.

# Generate the Annual Immunization Report

1. Enter the **Effective Date** in mmddyy format or select the calendar icon to choose a date. This field defaults to the current date.
2. Click **Generate Report** to generate the report in a PDF format or **Submit to Batch** to schedule when the report will generate.

The Batch process allows larger reports to generate in the background without disrupting the use of Campus. For more information about submitting a report to the batch queue, see the Batch Queue article.
