## Calculation of Hours

The state's midpoint calculation determines the hours reports. Hours are broken into a daily value, multiplied by the student's membership days and divided by 60 minutes.

$$\text{Minutes a day} \times \text{MBR DAYS} / 60$$

## Assumed Values

These values are considered regardless of non-instructional days since daily minutes are multiplied by the student's membership days.

1 week = 5 days

1 month = 4 weeks

1 year = 36 weeks

1 quarter = 9 weeks

1 trimester = 12 weeks

## Other reporting rules

If the Service Hours field does not contain a value and the Enrollment Service Type is S: Partial, hours are not reported.

SpEd Service Hours will NOT report from an enrollment in a calendar with zero instructional days.

Hours are still calculated if the student does not have a Primary Disability and/or Special Education Setting and has a trigger.
