Classic Path: System Administration > Special Ed > Accommodations

Search Terms: Accommodations

The Accommodation tool is used to add Accommodations options for a student's IEP on the Accommodations editor. Options available in the dropdown are prefilled, but this tool adds additional options.

The screenshot displays the 'Accommodations Tool' interface. It is divided into two main sections: 'PlanAccommodation Editor' on the left and 'PlanAccommodation Detail' on the right. The 'PlanAccommodation Editor' shows a table with a header 'Name' and one entry 'Additional Time'. The 'PlanAccommodation Detail' section contains the following fields: a required text field for '*Name:' with the value 'Additional Time'; a dropdown menu for 'Form D Accommodation Area:' with the selected value 'State Accommodations: Timing'; another dropdown menu for 'Accommodation Type:' with the selected value 'State Accommodations'; a text field for 'State Code:' with the value '0000'; a large text area for 'Description:' which is currently empty; and a checked checkbox labeled 'Active'.

1. Enter a **Name** for the plan accommodation.
2. Select the accommodation area from the **Form D Accommodation Area** dropdown,
3. Select an **Accommodation Type** from the dropdown.
4. Enter a **State Code**.
5. Enter a **Description**.
6. Mark the **Active** checkbox.
7. Click **Save**. The new Accommodation displays in the Accommodation dropdown on the Accommodations editor of the IEP.
