## Digital Equity Field Descriptions

**Classic View:** Student Information > Program Participation > State Programs > Digital Equity

**Search Terms:** Digital Equity

The Digital Equity tool allows schools to track digital devices and internet availability for students. When a student's instruction method changes, the existing Digital Equity record should be ended and a new record created. Records cannot overlap.

See the core [Digital Equity](#) article for information on necessary tool rights, available Ad hoc fields, and guidance on adding and printing Digital Equity records.

Note the following:

- Use the [Federal/State Program Updater](#) tool to import Digital Equity information to this tool.
- For OLR Prime users, see the [OLR Federal Program Posting Setup](#) article for information on adding Digital Equity fields (and other Federal Program fields) to the Online Registration application. These fields automatically post to the added field.
