Search Terms: Summer School Extract

The Summer School Report collects the total days of attendance for a district's summer school program. Students who are enrolled in a summer school program and in attendance for 3-6 hours per day over 12 active attendance-taking instructional days and students who are enrolled in over 6 hours per day over 12 active attendance-taking instructional days are included on the report.

Summer School Extract

Report Logic

The following must be marked in order to be included in the report:

- Calendars must be marked as **Summer School** on the [Calendar Details](#) editor.
- Courses must be marked as **Active**.

Students are not included when:

- The enrollment record is marked as No Show or as State Exclude.
- The grade level of enrollment is marked as State Exclude.
- The calendar of enrollment is marked as State Exclude.

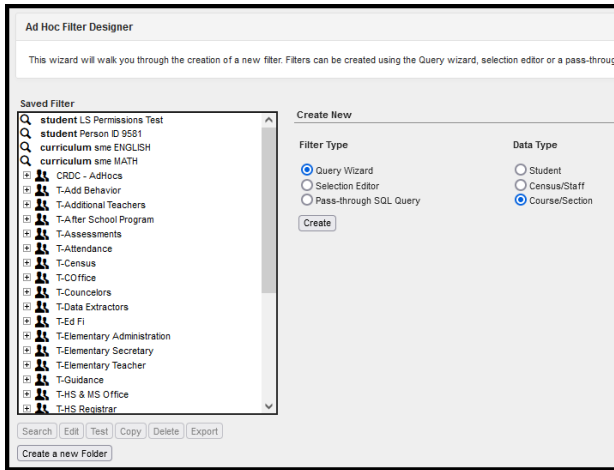

ONLY Summer School courses that count towards a student's progress towards graduation are included in the report.

Report Editor

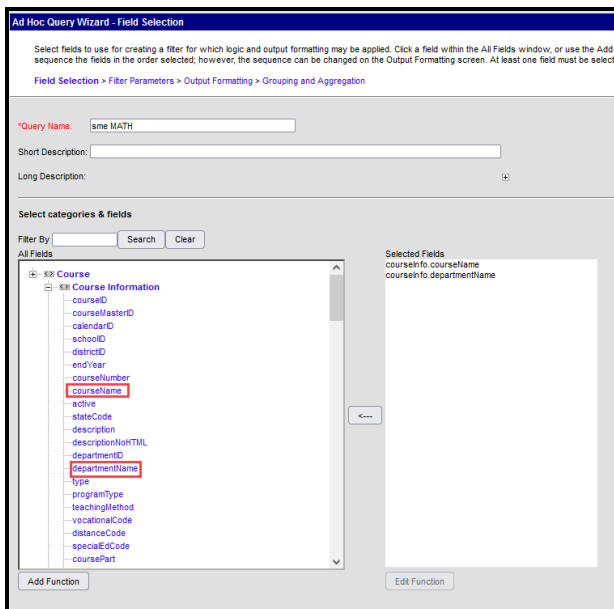

Field	Description
Format	Determines the output of the report. It can be generated in Comma Separated (CSV), HTML, or XML (State Format).
Remedial Math Ad hoc Filter	<p>When selected, the extract reports data for the Math courses in the selected filter only. From that filter selection, report logic displays total enrollment for the courses included in the filter.</p> <p>It is recommended that districts create an Ad hoc Filter using the Course/Section Data Type that includes the Course Name, Department Name (set the Department Name equal to Math), Course Number, and any other identifying information that indicates "remedial" courses. See the Create Ad hoc Filter section following this table for guidance.</p>
Remedial Reading Ad hoc Filter	<p>When selected, the extract reports data for the Reading courses in the selected filter only. From that filter selection, report logic displays total enrollment for the courses included in the filter.</p> <p>It is recommended that districts create an Ad hoc Filter using the Course/Section Data Type that includes the Course Name, Department Name (set the Department Name equal to Reading), Course Number, and any other identifying information that indicates "remedial" courses. See the Create Ad hoc Filter section following this table for guidance.</p>
Calendar Selection	At least one calendar needs to be selected in order to generate the report. Calendars can be selected by Active Year, School or Year.
Report Generation	The report can be generated immediately using the Generate Report button. Or, use the Submit to Batch button to select when the report is generated. See the Batch Queue article for more information on this functionality.

Create Ad hoc Filter for Remedial Math and Reading Courses

1. Navigate to **Ad hoc Reporting** and select **Filter Designer**.
2. Select the **Filter Type** of **Query Wizard**.
3. Select the **Data Type** of **Course/Section**. Then click **Create**.

4. Enter a **Query Name**. Make this easily identifiable so it can be quickly found when generating the Summer School Extract.
5. In the All Fields window, expand **Course** and **Course Information**.
6. Select the fields **courseName** and **departmentName**, as well as any other item that is used to identify a course as being a remedial course. For example, maybe course numbers for remedial courses begin with R.

7. Click **Next**.
8. Set the **courseInfo.departmentName** equal to the department name for either the **Math** courses or the **Reading** courses. This example shows Math as the selected Department Name.

*Query Name: sme MATH

Short Description:

Long Description:

Filter the data

ID	Field	Operator	Value
1	courseInfo.courseName		
2	courseInfo.departmentName	=	Math

Add

Logical Expression (Optional):

9. Click the **Save & Test** button. Matching courses are included in the filter output.

sme MATH Total Records: 7

All Records

Generate the Extract

1. Select the desired **Format** of the report.
2. Select a **Remedial Math Ad hoc Filter** from the dropdown list.
3. Select a **Remedial Reading Ad hoc Filter** from the dropdown list.
4. Select the **Calendar(s)** from which to report information.
5. Click the **Generate Extract** button or use the **Submit to Batch** button. The report displays in the selected format.
