PATH: [NV State Reporting](#) > [NV Master Register](#)

The NV Master Register is detailed list of all students enrolled in a school within the specified date range.

NV Master Register

NV Master Register is a list of the students enrolled in a school during a date range. A student who has ended their enrollment during the date range will have an end status listed.
To generate a file enter a Start Date, End Date, and one or more Calendars from the list. Each school will have a list of all students with an enrollment during all or part of the date range. Select a Format. Options are PDF or CSV. CSV will open in Excel.

[NV State Reporting](#) > [NV Master Register](#)

Report Logic

- The Master Register Report is generated and printed three times a year: 1st day of school, Count Day and the last day of school.
- A total of enrollments and withdrawals for each grade level is reported. The Total Enrollments and Withdrawals are the net number of enrollments and withdrawals in the date range entered on the Extract editor by grade. A total for the entire school at the end of each file is also included and is inclusive of all grade levels reported.
- A student must be recorded on the school's Master Register within 2 days of the student's date of enrollment.
- A pupil remains enrolled in a public school until they are transferred from the school or their name is withdrawn from its Master Register. A pupil remains enrolled in a school if they are:
 - Truant from school and documentation of the truancy is maintained by the school district OR
 - Absent from school with an expected date of return, provided the student has attended school at least one school day in a school statistical month.
- The date of enrollment on the Master Register is the first day a pupil is enrolled and in

attendance at the school on a school day in session and the student attends the minimum number of minutes for his/her grade level.

- The student's enrollment Start Date must be on or before the End Date of the date range specified on the extract editor.
 - If the student exits the school after the date range Start Date but before the date range End Date, the student's End Status is reported.
- A student must not be entered as an enrolled student in the Master Report for more than one school on the same day.
 - The Primary enrollment record is used to determine which enrollment record to include for students with multiple enrollment records. Partial and Concurrent enrollment records are excluded.
 - If a student has more than one Primary enrollment record, the FTE is used to determine which enrollment record to report.
 - If both enrollment records are Primary enrollment records and have the same FTE, the most recently created enrollment record is used.
- A record reports for students with any Service Type = P, S, or N.
- Students with a Start Status of E3, E4, E5, E6, E7, E10, and H3 do not report.

Generating the Report

1. Select the **Start Statuses** to which you want to limit the report.
2. Enter the **Start Date** in *mmdyyyy* format or by clicking the calendar icon and selecting a date. Students enrolled on or after this date are included within the report.
3. Enter the **End Date** in *mmdyyyy* format or by clicking the calendar icon and selecting a date. Students enrolled on or before this date are included within the report.
4. Select the **Report Type**. Both report types include the same information; however, the Track Report also includes the Track Code in the report header.
5. Select an **Ad Hoc** filter to narrow the report results.
6. Select which **Calendar(s)** to include within the report.
7. Select the **Format**. To review data prior to submission to the state, use the PDF format. For submission to the state, select the State Format (CSV).
8. Select one of the following options:
 - **Generate Extract**. The report will appear in a separate window in the designated format.
 - **Submit to Batch**. This process allows larger reports to generate in the background, without disrupting the use of Campus. For more information about submitting a report to the batch queue, see the [Batch Queue](#) article.

NV Master Register Layout

Header Layout

Element	Description	Type, Format and Length	Campus Database	Campus Application
Time Stamp	Time the file was generated.	HH:MM	Not Dynamically Stored	N/A
Date Stamp	Date the file was generated.	MM/DD/YYYY	Not Dynamically Stored	N/A
School Name	Name of the school for which the file is generated.	Alphanumeric	School.name	System Administration > Resources > School > Name
Page Number	The page number out of total number of pages.	Numeric	Not Dynamically Stored	N/A
Start Date	The Start Date entered on the report editor.	Date, 10 characters MM/DD/CCYY	Not Dynamically Stored	NV State Reporting > NV Master Register > Start Date
End Date	The End Date entered on the report editor.	Date, 10 characters MM/DD/CCYY	Not Dynamically Stored	NV State Reporting > NV Master Register > End Date
School Code	Unique identifier assigned to the reporting school.	Alphanumeric, 7 characters	School.number	System Administration > Resources > School > State School Number
Track Code	The track number of the reporting calendar.	Numeric, 1 digit	Calendar.track	System Administration > Calendar > Calendar > Calendar > Track
