PATH: *NV State Reporting > NV02 Ethnic Report*

The NV02 Ethnic Report is a snapshot of enrollment and race ethnicity data per school by gender and grade. Users have the option of generating a [summary](#) or [detail](#) version of the report.

NV02 Ethnic Report

NV02 Ethnic Report is a snapshot of the enrollments in a school by race/ethnicity by gender by grade. A student must be actively enrolled on the snapshot date. A student who has ended their enrollment prior to the snapshot date will not be counted in the enrollment calculations.

To generate a file select the calendars to report. Choose a report option, Track Summary or School Summary. Choose grade levels that will be reported. The default value is All Grades. Data will be generated for all grades defined in the calendar(s) selected. Select a Report Type. Options are Summary and Detail. If the Detail is selected in Report Type a sort option of Grade or Name may be used. The sort options will only be visible for the Detail report type. Select a Format. Options are PDF, CSV, and HTML. CSV will open in Excel.

Report Logic

- Grade levels within the reporting calendar must be mapped to State Grade Levels in order for data to properly report.
- Students must be actively enrolled within the reporting calendar on the Snapshot Date in order to report.
- If the student is Hispanic with multiple Race Ethnicity checkboxes checked, the student is counted as Hispanic regardless of other races.

- A record reports for the following PK SPED students:
 - If their **Special Ed Status** (Student Information > General > Enrollments > Special Ed Status) is **1 Receiving Services**.
 - If their **Special Ed Status** is 0 or Null and their **Special Ed Exit Date** is greater than or equal to the **Snapshot Date** on the extract editor.
- A record reports for students with any Service Type = P, S, or N.
- Students are **NOT** included if
 - their enrollment record is marked as No Show;
 - their Grade Level of enrollment is marked as State Exclude; or
 - their Calendar of enrollment is marked as State Exclude.
 - they are PK: Prekindergarten and they do not have an active, locked IEP as of the snapshot date.
- Only students with the following Enrollment Start Statuses report: E1, E8, E9, and R2.

Generating the Report

1. Select which **Grades** to include within the report. These grades must be mapped to State Grade Levels to report properly.
2. Select the **Start Statuses** to which you want to limit the report.
3. Enter a **Snapshot Date** in *mmddyyyy* format or click the calendar icon and select a date. This date is the *Report Count Date* in the report.
4. Select the **Report Type**.

Report Type	Description
Summary	Data is reported by grade.
Detail	Data is reported by student.

5. Complete one of the following options.

If the Report Type is...	Then...						
Summary	select a Summary Type . <table border="1" data-bbox="523 1727 1299 2031"> <thead> <tr> <th>Summary Type</th> <th>Description</th> </tr> </thead> <tbody> <tr> <td>Track Summary</td> <td>Reports multi-track schools in separate reports.</td> </tr> <tr> <td>School Summary</td> <td>Reports multi-track and regular schools in one report</td> </tr> </tbody> </table>	Summary Type	Description	Track Summary	Reports multi-track schools in separate reports.	School Summary	Reports multi-track and regular schools in one report
Summary Type	Description						
Track Summary	Reports multi-track schools in separate reports.						
School Summary	Reports multi-track and regular schools in one report						

If the Report Type is...	Then...
Detail	select a Sort by option: Grade or Name.

6. Select which **calendar(s)** to include within the report. Select calendars which are active during the Snapshot Date entered.
7. Select the **Format** .

Format	Select this format to...
PDF	review data prior to submission to the state.
HTML	review data prior to submission to the state.
State Format CSV	submit data to the state.

8. Select an **Ad hoc Filter** to limit the information reported to students within the selected filter.
9. Click the **Generate Report** button.

Result

The report displays in a separate window in the designated format.

Users have the option of submitting the report request to the batch queue by clicking **Submit to Batch** instead of **Generate Extract**. This process allows larger reports to generate in the background, without disrupting the use of Campus. For more information about submitting a report to the batch queue, see the [Batch Queue](#) article.
