The CTE Data Reports editor provides users with the ability to generate and submit CTE data to the Nevada Department of Education. Nevada CTE Reports consist of three Report Types:

- Student Course Combined:
  - Version:
    - Count Date: Reports all students actively enrolled and rostered into a CTE course as of the count date.
    - End of Year: Reports all CTE students and CTE courses completed during the reported period.
- Student Concentrators:
  - Reports all students who have completed at least two credits towards a CTE Program of Study.
- Student Graduates:
  - Reports all students who have completed a CTE Program of Study and are no longer enrolled in the district.

As of the **Campus.2152** release, CTE Extracts (Nevada) have been rewritten to CTE Reports (Nevada).

CTE Data Reports

This extract editor will generate files to report CTE data. The reports will contain records for CTE students only as determined by their course roster entries.
