PATH: *NV State Reporting > CTE Data Extracts > Report Type > Student Dropout Report*

The Student Dropout Report is the third CTE file to be submitted. This report extracts any student flagged as a CTE student in the enrollment that has withdrawn their high school enrollment for any reason. This report is due by Nov 15 of the reporting year.

CTE Data Extracts

This extract editor will generate files to report CTE data. The reports will contain records for CTE students only. Non-CTE students should be excluded. The student's most recent active primary enrollment will be reported. If the student does not have an active enrollment, but the effective date is on or between the Start and End Date of the enrollment, the student's record will be reported in the extract. If the student's enrollment dates are outside the effective date of the report, the enrollment will be ignored and no record will be reported.
