Search Terms: [SASID Request](#)

The SASID Request Extract reports all students who do not have a SASID on the Effective Date chosen in the extract editor.

SASID Request Extract

This tool will extract data to complete the New Hampshire SASID (State Assigned Student ID) Request extract. School Districts can request a SASID one at a time through a web-based tool, or submit a comma-delimited file that requests SASIDs for multiple students at one time. Choose the State Format (CSV) to get the file in the state-defined CSV file format, otherwise choose HTML for testing/debugging.

Report Options

Effective Date: 03/20/2020

Format: CSV (Default Format)

Which calendar(s) would you like to include in the report?

- active year
- list by school
- list by year

19-20
