i4see Extracts
This tool will extract data to complete several formats of the New Hampshire State-defined i4see reporting extracts. Choose the State Format (CSV) to get the file in the state defined format, otherwise choose HTML for testing/debugging. Note: Prior to submission, you must remove the header row, if one exists, and save the file as a "comma separated file".

Career and College Readiness Report

Report Logic

All students who were enrolled in grade 12 between the entered start and end dates are included in the report.

Report Editor Options

Data Element	Description
Extract Type	Indicates the type of extract selected. Select CCR from the list of options.
Start Date	Beginning date of the student enrollment records. Dates are entered in <i>mmddyy</i> format or can be selected by using the calendar icon.
End Date	End date of the student enrollment records. Dates are entered in the <i>mmddyy</i> format or can be selected by using the calendar icon.
Ad hoc Filter	Selection of previously made filter that contains specific students to include in the label request.
Report Format	Determines how the request is generated - in the State Format (CSV) or HTML. Use the HTML format when reviewing data. Use the State Format when submitting the list to the state.
Select Calendars	At least one calendar must be selected in order for the extract to generate. Calendars can be selected by the active year, by the school year, or by the year. Students in the chosen calendars are included in the extract.

Generate the Report

1. Select the **CCR** option from the **Extract Type** dropdown list.
2. Enter the **Start Date** and **End Date** of the enrollment records to include.
3. Select an **Ad hoc Filter** from the dropdown list to reduce the amount of students included in the extract.
4. Select the desired **Report Format**.
5. Select the **Calendars** from which to pull students in the report.
6. Click the **Generate Extract** button to display the report immediately, or use the **Submit to Batch** button to choose when the report generates. The report will display in the selected format.
