

SMART Staff Course Data Extract (New Jersey)

Last Modified on 10/22/2022 10:32 am CDT

[Report Logic](#) | [Report Editor](#) | [Generate the Extract](#) | [Report Layout](#)

Classic Path: [NJ State Reporting](#) > [SMART Extracts](#) > [SMART Staff Course Data](#)

Search Terms: [SMART Extracts](#)

The Staff Course Data Extract reports a record for each staff member who is responsible for the roster in a course that is active during the reporting start and end dates. If this staff member enters, exits and then re-enters the same course section, information is reported from the most recent record.

SMART Extracts ☆

NJ SMART File Extract

This tool will extract data to complete the New Jersey Standards Measurement and Resource for Teaching (NJ SMART) reporting extract for October and December or EOY. Choose the State Format (CSV) to get the file in the state-defined CSV file format, otherwise choose HTML or PDF for testing/debugging. Each extract contains a 1 line header.

Snapshot Date can be obtained by entering the same date for the Reporting Period Start Date and Reporting Period End Date.

SMART Staff Course Data

Report Logic

The extract will first look for a **Primary Teacher**, **Teacher** or **Staff** listed as the Teacher of Record on the [Staff History](#) tool. If no Primary Teacher is assigned, the report will look for a **Teacher** assignment. If no Primary Teacher or Teacher assignment exists, the report then looks for a **Staff**

Member assignment.

If a course section does not have any students scheduled into it, that section is not included in the report.

Report Editor

Field	Description
Extract Type	Selection determines which extract generates.
Reporting Period Start Date	Entered date determines the time frame of the extract, reporting only that student data as of that date. Dates are entered in mmddyy format or can be chosen by using the calendar icon.
Reporting Period End Date	Entered date determines the time frame of the extract, reporting only that student data as of that date. Dates are entered in mmddyy format or can be chosen by using the calendar icon. The end date field is auto-populated with the current date.
Students without state IDs	When marked, students who are not assigned a state ID will be returned, in addition to those students who do have a state ID.
Ad hoc Filter	When selected, only those students in the filter will be included on the selected SMART extract.
Format	SMART Extracts generate in either HTML format or in CSV format (state format).
Calendar Selection	Selection indicates from where the data is pulled.
Report Generation	Use the Generate Extract button to display the results of the extract immediately.

Generate the Extract

1. Select **SMART Staff Course Data** from the **Extract Type** dropdown list.
2. Enter a **Reporting Period Start Date**.
3. Enter a **Reporting Period End Date**.
4. Mark the **Student w/o stateIDs** if those students should not appear in the report.
5. Select ad **Ad hoc Filter**, if desired.
6. Indicate the **Format** in which in which the report should generate.
7. Click the **Generate Extract** button to generate the report in the desired format.
