The Graduation tool provides districts with the ability to track graduation information used in state reporting, AYP (Average Yearly Progress) determinations and NCLB (No Child Left Behind) report cards. Districts can track when a student first entered ninth grade and calculate his/her expected graduation date.

Graduation fields are included in the Ad hoc Filter Designer using the **Student Data Type**. Information on those fields is included below.

Information on this page is specific to New Jersey. For general information on the Graduation tool, refer to the main [Graduation](#) article.
