Report Editor

Description	
The Submission Schedule for which data is being submitted to the state. The value selected determines the Standardized Date used for reporting logic.	
This date field is only available if the Submission Schedule is Open Yr Round . This is the date on which the course must have at least one section actively scheduled in order to report.	
Select a filter to limit results to those included in the filter.	
The format in which the report will generate. Options include HTML and Comma Separated.	
The calendar(s) from which data is pulled for the report.	
The report can be marked to generate immediately using the Generate Extract button or can be marked to generate at a later time using the Submit to Batch button. See the Batch Queue article for additional guidance. The Submit to Batch option is NOT available if you are using the SSRS report service.
