Report Logic

- A record reports for each staff member that has an active District Assignment record.

- A District Assignment record is considered Active when it is active on the Reporting Date in the SCHOOL/s selected on the extract editor.
- Assignment records do NOT report if the active employment record has a Qualification Status of T - Substitute Teacher (Short Term).
- Assignment records do NOT report if there is an active District Assignment record tied to the selected Calendar, but no active Employment record on the Reporting Date.
- A record does NOT report if the staff's SSN value = 777777777 or 555555555 or 888888888.
- For the EOY submission schedule, Campus only looks for active District Assignments on the last common instructional date. Campus recommends end dating District Assignments at the end of the school year for those staff whose assignments do not remain active throughout both the regular school year and the summer.
