Report Logic

- Reports one record per enrolled student per active program when the State Reported Flag is marked and the State Program Code is NOT null.
 - K5P programs only report during the K5P submission schedule.
- Reports one record per enrolled student per State Programs > [BEP record](#) that is active on the extract editor **Standardized Date**.
- Reports all student's T1 Program Participation records that are active on the Standardized Date.
- To report, the student must have one enrollment on the Standardized Date selected on the extract. A record reports from the primary enrollment. If there isn't a primary enrollment, the record reports from the partial enrollment or from Special Ed Services.
 - If the student drops on or after the Standardized Date, then re-enrolls after the Standardized Date, all active State Reported flags still report. If the student drops before the Standardized Date, then re-enrolls after the Standardized date - no records report for the student.
 - Students in an enrollment marked State Exclude or No Show, in a grade level marked State Exclude, or in a calendar marked State Exclude do not report.

Report Editor

Field	Description
Submission Schedule	The Submission Schedule for which data is being submitted to the state.
Standardized Date	The standardized date of the collection on which the student must be enrolled to report.
Which Students would you like to include in the report?	<ul style="list-style-type: none"> • Grade: Select a single grade or multiple grades (CTRL-click or SHIFT-click to select multiple). • Ad Hoc Filter: Ad Hoc Filters allow you to limit report results to those included in the filter. This option is useful for troubleshooting.
Format	The format in which the report will generate. Options include HTML, Comma Separated and XML.
Select Calendars	The calendar(s) from which data is pulled for the report.
Generate Extract Submit to Batch	The report can generate immediately using the Generate Extract button or can be marked to generate at a later time using the Submit to Batch button. See the Batch Queue article for additional guidance.

17	Original Pgm Start Date	<p>The date the student began the program when one of the following flags is given to a student: CEIS, 3Y, 4Y or FACE. Reports the Flag Start Date or the student's first enrollment Start Date when it occurs in the selected school year. To determine which is the "first (oldest) enrollment Start Date" in the school year, Campus first considers enrollments marked as Primary. If the student does not have at least one enrollment marked as Primary, Campus then considers Partial and Special Ed enrollment Start Dates. To determine which Start Date to report, Campus compares the Flag Start Date to the student's derived first enrollment Start Date. If the first enrollment Start Date occurs after the Flag Start Date (or the Flag Start Date does not occur on or after the start of the school year), the first enrollment Start Date reports. If the Flag Start Date occurs after the student's first enrollment Start Date in the school year, the Flag Start Date reports.</p> <p><i>Date field, 10 characters YYYY-MM-DD</i></p>	<p>Student Information > General > Flags > Start Date Program.startDate</p>
