Extract Editor Field Descriptions | Location Marking Period Code Extract Layout

Classic View: NY State Reporting > SIRS Extracts > Location Marking Period Code

Search Term: SIRS Extract

The SIRS Location Marking Period Code extract defines the marking period code, term code, start date, and end date for each marking period offered at each location in your district.

Location Marking Period Code Editor

Extract Editor Field Descriptions

Field	Description
Extract Type	Select which SIRS Extract to be run from the **Extract Type** dropdown list. Options are listed in the following SIRS Extracts table.

Field	Description
Format	The Format in which the report should generate. Options are State Format (CSV) and HTML. Use State Format for reporting information to the state and the other types for data review and verification.
Column Headers	Indicates whether Column Headers should be included in the report. This dropdown list applies to State Format (CSV).
Generate Extract/ Submit to Batch	Users have the option of submitting a report request to the batch queue by clicking **Submit to Batch** instead of immediately generating the report by clicking **Generate Extract**. The batch process allows larger reports to generate in the background without disrupting the use of Campus. For more information about submitting a report to the batch queue, see the Batch Queue article.
Select Calendars	Identifies which Calendar(s) should be included in the report. Calendars can be sorted by active year, by school or by year.

Location Marking Period Code Extract Layout

Column	Description	Type, Format and Length	Campus Database	Campus Location
District Code	The code that identifies the district and its schools for reporting purposes. The prefix "NY" is added to the first six digits in the State District Number field. For example, if the district number is 662001123456, the District Code is NY662001.	Alphanumeric, 8 characters	district.number	System Administration > Resources > District Information > State District Number
