PATH: *OH State Reporting > OH Extracts > Student Attributes Effective Date Record (FD)*

The Student Attributes Effective Date Record (FD) extract contains a combination of student demographic and attendance data for each student reported in EMIS during the date range entered.

Users must submit a new October extract if any reported student has their disability condition change between the October reporting period through December 1.

All students active or inactive within the selected calendar(s) and the Date Range entered on the extract editor will report a record.

Report Logic

- Students do not need to have an active enrollment to appear in the report.
- Each enrollment record that occurs during the Date Range entered in the extract editor will be included in the report. Multiple records may generate for each student.
- Only enrollments with a Service type of P or N will report in the extract.
- **Split Record Population Logic** - ETR - Primary Disability
 - The Primary Disability from a locked and active ETR to the next cannot be the same. If consecutive ETR's contain the same Primary Disability, additional FD records will not report.
 - If Primary Disability is not the same and Meeting Date does not match the enrollment Start Date but is within range of the enrollment, an FD record reports. EffectiveStartDate = Meeting Date. The the day prior to the Meeting Date will be the EffectiveEndDate for the closed record.

- If multiple locked and active state specific ETR's are found within the range of the enrollment, a new record reports using the above logic ONLY if there is a change in Primary Disability from one ETR to the next.
- **Split Record Population Logic - SPED Dates**
 - If the student has a SPED Dates status with an Exit Date within the range of a student's enrollment and has an Exit Reason = ETEX or ETNE, an FD record reports. EffectiveStartDate = SPED Exit Date. The day prior to the Exit Date will be the EffectiveEndDate for the closed record. DisabilityCondition of the current record will reports as **. Any enrollment created beyond the current record will report as ** in DisabilityCondition until a new ETR is found containing a Primary Disability.
 - Only ETRs and an Exit Reason = ETEX or ETNE cause a split record to be generated.
- **Split Record Population Logic - English Learners (EL)**
 - If Identified Date or EL Service Start Date is on or before the enrollment Start Date, reports English Learners (EL) Status.
 - If Identified Date, EL Service Start Date or Program Exit Date do not equal enrollment Start Date but fall during the enrollment, a split record will be created with a change in English Learners (EL) Status.
 - If multiple EL statuses fall within the enrollment, a new record reports if there was a change in EL Status between records.
- **Split Record Population Logic - Homeless**
 - Reports a split record if the Effective Start Date, Effective End Date, Homeless Status, or Unaccompanied Youth fields have been changed.
 - If the student has a Homeless record with a Start Date prior to the enrollment Start Date, reports Homeless Status and Unaccompanied Youth from the current record.
 - If the student has a Homeless record with a Start Date within the enrollment date range, reports a split record with Homeless Status and Unaccompanied Youth reporting from the current record.
 - If multiple Homeless records are found during the enrollment, a new record is reported only if there is a change to the Homeless Status or Unaccompanied Youth.
- For SPED Dates or EL split records to report, there must be Day records created from 7/1/20xx to 6/30/20xx. The Day Resent tool on the Days tab creates the necessary records.

Determining English Learners (EL):

Status	Condition	Other Logic
N: No	Program Status: Exited EL Program Exit Date: not null	N/A
Y: Yes	Program Status: EL Identified Date: not null	Trumped by statuses of L and M
L: LEP - Enrolled in U.S. Schools for First Time	Services has a State Service Type of L: Date Entered U.S. School less than 180 days Start Date: not null	Trumps a status of Y.
S: LEP - Enrolled in U.S. Schools for 2nd Year	Service has a State Service Type of S: LEP - Enrolled in U.S. Schools for 2nd Year State Date: not null	Trumps a status of Y.

Status	Condition	Other Logic
M: LEP - Trial-Mainstream	Service has a State Service Type of M: Trial-Mainstream Start Date: not null	Trumps all other statuses

Report Editor

The following table describes the options available in the extract editor.

Editor Field	Description
Extract Type	The type of extract being generated. In this case, select Student Attributes Effective Date Record (FD) .
Reporting Period	Indicates when the report is being submitted. Options are: <ul style="list-style-type: none"> • A: Assessment • C: Calendar • D: March • G: Graduate • L: Staff/Course • R: Grad Requirement • S: Student
Date Range	The dates which determine which student enrollments will appear on the report, based on the Start and End Dates of enrollments within the selected calendar(s). The first date defaults to 07/10 of the calendar start year.
Membership Begin Date	Used to determine the Effective Start Date. Ohio tracks membership by fiscal year, beginning on 7/1. Enter a date of 7/1/XX to report enrollments for that year.
Format	The format in which the report will generate. Options are <i>State Format (Fixed width)</i> , <i>HTML</i> , <i>CSV</i> and <i>XML</i> . Use HTML, CSV or XML formats for data review, and verification and State Format for submission to the State.
Ad hoc Filter	Allows a previously created Ad hoc Filter to be selected that will limit what students appear in the report. Filters are created in the Filter Designer .
Calendar(s)	Students enrolled in the selected calendar(s) will appear in the report.

Generating the Extract

1. Select the Student Attributes Effective Date Record (FD) **Extract Type**.
2. Select the appropriate **Reporting Period**.
3. Enter the **Date Range** in *mmdyy* format or by clicking the calendar icon and selecting a date.
4. If reporting for the October Reporting Period, enter a **Count Week** date range in *mmdyyyy* format or by clicking the calendar icons and selecting dates.

5. Enter a **Membership Begin Date**.
6. Select the proper **Format**. For submission to the state, select the State Format (Fixed width). To review data prior to state submission, select any of the other available formats.
7. Select which **calendar(s)** to include within the extract.
8. Select an **Ad hoc Filter**, if applicable.
9. Click **Generate Extract** to generate the report in the indicated format or **Submit to Batch** to schedule when the report will generate. If generating multiple extracts at a time (after Campus.1921), requests can only be submitted to the Batch Queue.

Users have the option of submitting a Student Attributes Effect Date Record report request to the batch queue by clicking **Submit to Batch** instead of Generate Extract. This process will allow larger reports to generate in the background, without disrupting the use of Campus. For more information about submitting a report to the batch queue, see the [Batch Queue](#) article.
