Report Logic | Generating the Extract | Extract Layout

PATH : OH State Reporting > OH Extracts > CTE Correlated Class Record (CV)

The CTE Correlated Class Record (CV) extract reports information on Technical Related local classroom codes, Career-Based Intervention academic local classroom codes or Instructional Support Time local classroom code for GRADS from the Course Master Record.

Index	Search	Help	<	OH State Extracts	S			
 Oser Communication Assessment System Administration 			^	This tool will extract data to complete several formats of the OH State-defined reporting formats. Choose the State Format to get the file in the state defined fixed width file format, otherwise choose one of the testing/debugging formats.

Report Logic

- Courses must have a Correlated Course Number associated with a valid course number within the school.
- Only courses marked as active are reported.
 - Courses marked State Exclude are not reported.
- If multiple sections exist in the mapped Correlated Course or Second Correlated Course, they are reported by order of occurrence.

Only courses with the following curriculum will be reported (Course > Curriculum):

- VT: Career Tech Ed Tech Prep Non-Cooperative Anchor
- VP: Career Tech Ed Tech Prep Cooperative Prog Anchor
- VN: Career Tech Education Non-Cooperative Based Anchor
- VC: Career Tech Education Cooperative Program Anchor

Generating the Extract

- 1. Select the CTE Correlated Class Record (CV) Extract type.
- 2. Select the Reporting Period.

- 3. Select which **calendar(s)** to include within the extract.
- 4. Select the extract **Format**. For submission to the state, select the State Format (Fixed width) option. To review data prior to state submission, use any of the other available Format options.
- Click Generate Extract to generate the report in the indicated format or Submit to Batch to schedule when the report will generate. If generating multiple extracts at a time (after Campus.1921), requests can only be submitted to the Batch Queue.

Users have the option of submitting a CTE Correlated Class Record request to the batch queue by clicking **Submit to Batch** instead of Generate Extract. This process will allow larger reports to generate in the background, without disrupting the use of Campus. For more information about submitting a report to the batch queue, see the Batch Queue article.
