

Custom GPA Calculation (Ohio)

Last Modified on 10/22/2022 10:34 am CDT

[Step 1 - Create GPA Calculation](#) | [Step 2 - Add the GPA to the School Calendar](#) | [Step 3 - Select GPA as GPA Requirement in a Graduation Program](#) | [Step 4 - Add Graduation Program to the Student](#)

One way to create a custom GPA calculation is using a stored procedure, which is a SQL query that is saved for future use. This article describes using a stored procedure provided to Ohio users by Campus to create a custom GPA Calculation.

The stored procedure described in this article is used for calculating GPA for grades 11 and 12.

This article provides only a basic overview of the tools used when creating and using a custom GPA. See the articles linked in each section for more information.

Step 1 - Create GPA Calculation

PATH: *System Administration > Grading & Standards > Custom Calculation*

First, create a new [GPA Calculation](#). Give the calculation a **Name** (such as Grades 11 and 12), select a **Calculation Type** of *Weighted GPA* and a **Calculation Method** of *Use Custom Stored Procedure*. Enter the following as the Name of the stored procedure:

get_gpa_stats_12

Create a new GPA calculation using the stored procedure shown above.

Step 2 - Add the GPA to the School Calendar

PATH: *System Administration > Calendar > Calendar > Calendar GPA*

Next, select a School and Calendar in the Campus toolbar and select the GPA you just created on

the [Calendar GPA](#) tab to add it to that school.

Step 3 - Select GPA as GPA Requirement in a Graduation Program

PATH: [Program Admin](#) > [Programs](#) > [Graduation Programs](#)

Next, create a [Graduation Program](#) that has the GPA you created selected for the [GPA Requirements](#) section.

Step 4 - Add Graduation Program to the Student

PATH: [Student Information](#) > [Academic Planning](#) > [Programs](#)

Finally, select the Graduation Program that includes the custom GPA for a student on the [Programs](#) tab in Academic Planning.

Programs Progress Course Plan

Save Delete New Graduation Program New Academic Program

Academic Plan Editor

Program	Start Date	End Date	Program Type	Flag
Example Graduation Program	02/11/2020		Graduation	

Graduation Program Detail

*Program
Example Graduation Program (Graduation)

*Start Date End Date
02/11/2020

The last step is to add the program to the student.
