

Transition State Reporting (Pennsylvania)

Last Modified on 10/22/2022 10:35 am CDT

Transition Detail Fields

Classic View: Student Information > Special Education > General > Transition State Reporting

Search Terms: Transition

The Transition tool allows tracking of students who receive Special Education services to ensure they receive proper guidance to successfully be employed after high school. This information was previously reported on the Transitions editor of the IEP.

Overlapping records are not allowed, meaning only one active record is allowed at one time. However, a student may have multiple historical records.

The [PIMS Special Education Snapshot](#) reports data recorded on this tool.

Student Transition Editor

Transition Detail Fields
