The CTE Student in Programs Report lists the student's ID number and course number of enrollment where the student is receiving CTE training.

## Report Logic

In order to report:

- A student must have an Active Career Tech Program (Career Tech Program Detail) at any time during the Prior Reporting Date and Effective Date on the report editor.
- Active and State Reported must be checked on the Career Tech Program Detail.
- Course data reports from the Course Section that has matching CIP code and CTE Program Type to the matching Active Career Tech Program CIP Code and CTE Program Type. If a student has multiple active Career Tech Programs multiple records are reported.

Students do not report when:

- Their enrollment record is marked as State Exclude or No Show.
- They are enrolled in a grade level marked as State Exclude.
- They are enrolled in a Calendar marked as State Exclude.

The following CTE Data fields on the Course editor and Course Masters editor (if using a Course

Catalog) are included in the report. Any value populated on the [Course Master](#) editor displays on the [Course](#) editor.

- CIP Code
- Program Type
- Agreement Higher Ed
- Advanced Stand-In Training
- Post-Secondary Credit Code
- Apprenticeship Code
- Recognized Credential Earned Code
- CTE Sequence
- Concentrator in Sequence
