File Specifications

Files should follow the proper naming conventions and record definitions defined below:

- All files will be tab delimited with a header record.
- If a field is not required it can be left blank, but the proper number of tabs must be in each record.
- All dates within the file will be in the format MM/DD/YYYY.

Student Demographic

This record format contains basic student demographics fields. Typically there should be one record per student.
The exception for this is when a student's name or identifying information changes while at a district.
