## Report Logic

When the student's Health Appraisal screening record date falls within the extract's To and From Dates and the student's enrollment date range, the student's Health Appraisal record(s) in the selected calendar is reported.

When the student's Health Appraisal screening record date does not fall within any enrollment record date range but does fall within the extract's From and To Dates, logic reports the Health Appraisal record for the enrollment within the calendar selected during the extract's To and From Dates.

- Enrollment Service Type = Primary
  - Enrollments marked as No Show or have an Enrollment Service Type = N or P are not reported.
- Health Appraisal records are entered in Student Information > Health > General > Screenings > New > Type = Health Appraisal

# Report Editor Options

Editor Field	Description
<b>Calendar</b>	The calendar from which data will be pulled.
<b>From Date</b>	The opening date of the date range from which data will be pulled. This is a required field.
<b>To Date</b>	The closing date of the date range from which data will be pulled.
<b>Format</b>	The format in which the report should be generated. Options are CSV and HTML.

## Generating the Extract

To generate the South Dakota Health Extract:

1. Select the **Calendar** to be included in the report.
2. Enter a **From Date** in *mmdyyy* format or by clicking the calendar icon.
3. Enter a **To Date** in *mmdyyy* format or by clicking the calendar icon.
4. Indicate the **Format** in which the report should be generated, CSV or HTML.
5. Click **Generate Extract** to generate the report in the desired format.
