The 050 Student Withdraw extract reports records for students who withdraw from school to EIS. Students are only considered to have withdrawn if they leave during the school year. The withdrawal date reported to EIS is one day after the entered Withdraw date to account for the student's last day of attendance.

See the [EIS Batch Transmission](#) article for an overview of the EIS Batch Transmission File, logic that applies to all extracts, and generation instructions.

Report Logic

A record reports for each Primary or Partial enrollment that has an End Date entered. Records are not reported in advance for enrollments that become active in the future.

Records in Calendars or Grade Levels marked as Exclude or for students who do not have a Student State ID are not reported. Additionally, records are not reported for the following students. These students are included in the warning report.

- Students without PINs.
- Students with multiple active Primary enrollments.
- Students with multiple enrollments in the same school.
- Students with an enrollment marked as N: Special Ed Services
- Enrollments marked as No Show or Exclude.

The **Record Key**, which helps determine the Type of record sent (New, Edit, or Delete), is comprised of the Record ID, Record Version, District ID, School ID, School Year, Instructional Program Number, State Assigned Student ID, and Withdraw Date.
