Interchanges	Interchanges are XML Schema Definitions (XSDs) which group related complex types. Select **Student Enrollment**.
Fall Snapshot Date	**Submission 1 Only** The last Friday in October.
Last Day of School Start Window	**Submission 1 Only** Default value is today's date.
Effective Date	Only data as of this date reports. Default value is today's date.
Status	• Regular • Resubmission • Working Collection
Report Type	XML

Field	Description
Filter By	This field allows you to narrow the report results to specific Calendars, Calendar Years (District), or Schools.

Option	Description
Calendar	This option allows you to select the specific calendar(s) to include in the report.
District	This option allows you to select the specific Calendar Year to include in the report.
School	This option allows you to select the specific school(s) to include in the report.

Field	Description
Population	This option allows you to limit report results to Unique IDs. The Unique ID option only considers students with a Unique ID. The *All* option considers all students.
Ad Hoc Filter	Select an Ad Hoc filter to limit report results to those that meet filter requirements.
Report Generation	The report can be marked to generate immediately using the **Generate Extract** button or can be marked to generate at a later time using the **Submit to Batch** button. See the Batch Queue article for additional guidance.

SchoolLeaverExtension

The SchoolLeaverExtension Complex Type represents student leavers in grades 7-12 during the prior school year. The following types of students are included:

- Students in special education and other special, ungraded, or state-approved alternate programs.
- Students who enroll in private school or leave for home schooling.
- Students who fail to re-enroll in the fall.

If the As of Status Code is A, the entire complex type reports.

A school leaver who is not enrolled in the LEA in the school-start window of the current year is reported with a LEAVER-REASON-CODE.

Students who finished the school year and did not return in the fall within the school-start window are also report with a LEAVER-REASON-CODE unless the student is identified by TEA as

- Having earned a GED certificate at a Texas examination site by August 31st,
- Students considered school-year movers because they enrolled in other Texas public school LEAs, or
- Accounted for by other state reconciliation processes.

Students who graduated during the prior school year, including summer graduates up through August 31st report in Submission 1.

Students who complete a GED program are not reported as graduates.

Students who previously completed all graduation requirements in one school year but did not pass the exit-level TAAS or TAKS until the next year, report as graduates in the year in which the TAAS or TAKS test was passed.

StudentGraduationProgramExtension

Reporting Population - Submission 1: All students reporting within the SchoolLeaver Extension that have a leaver reason code of 1 and a graduation type of 34, 35, 54, 55, 56, or 57.

Reporting Population - Submission 3: All students reporting within the Interchange that meet the following criteria:

- The student has a value in the Graduation Date field OR
- The student does not have a value in the Graduation Date field, but has a value other than 0 in any of the Graduation Endorsements fields. OR
- The student has a value of 01 in the Ind Grad Committee field.

If the student is reporting a TX-LeaverReasonCode value of 01 and has a Graduation Type code of 34, 54, 55, 56, or 57, then entire complex type reports.
