[Demographics](#) | [\\*\\*District Employment](#) | [\\*\\*District Assignment](#)

The Census module tracks every person entry in Infinite Campus - parents, staff, students, emergency contacts, doctors, etc. Demographic data is used throughout Campus, utilizing historic details of each person. Some fields in the Census module are unique to each state. Other fields in the Census module do not require unique, state-specific data. However, many of these fields are required and data entry in these fields is necessary. For more information on these fields, see the [Census](#) page.

State Reporting *relies* on fields marked with an \*\*. Leaving these fields blank prevents the proper generation of state reports.

The state of Texas has moved to using Unique ID for state reporting. The new Student and Staff Unique ID fields are now located in Person Identifiers. The Unique State ID field that was in Person Information is now called Previous State ID; some Texas state reports still use the Previous State ID. However, most state reports will now pull data from the Person Identifiers fields.
