The Average Daily Attendance (ADA) tab is used to track a student's eligibility status as reflected in the attendance accounting records of the district. This tab allows users to add, edit, or delete ADA student records. This tab also allows users to print a summary of all ADA records for the selected student. ADA record creation is part of core functionality. Edits to this tab should be minimal.

Automatic ADA Record Creation

For every new enrollment that is created, a matching ADA Record is automatically created and populated. These records are created for new enrollments that are: created manually, Enrollment Roll Forward, or created through a records transfer.

Creating a New ADA Record

Users may create ADA records for students by pressing **New**. Users may add as many ADA records as necessary for each student.

ADA records MUST meet the following requirements:

- ADA record dates may not overlap one another
- There may be no enrollment gaps in ADA Eligibility
- ADA Start and End (if applicable) Dates must fall within the dates of the selected Enrollment

The screenshot shows the 'ADA Detail Editor' form. It includes a dropdown menu for 'Enrollment', two date input fields for 'Start Date' and 'End Date', a 'Comments' text area, and two dropdown menus for '*ADA Eligibility' (currently set to '1: Eligible for full day attendance') and 'Flexible Attendance Type'.

- Users are NOT able to edit this field at *any* time.
- Records are automatically end-dated when new ADA record, tied to same enrollment, is saved. This feature ensures there are no date overlaps for ADA records.
- When an Enrollment is end-dated, whether manually or through Enrollment End Batch, the last ADA record tied to that enrollment is end-dated on the same day.

If a record is deleted, the End Date for the previous ADA record, tied to the same enrollment, is updated to reflect this deletion and will no longer have an End Date.

It is important to note that when an enrollment is deleted, any applicable ADA records tied to that Enrollment ID are also deleted.
