The CIRS Victims extract enhances Vermont's ability to efficiently and accurately manage, analyze, and use education data. This extract reports person information for victims in Behavior incidents.

Example 19 CIRS Victims Extract Editor

## Report Logic

- This extract reports person information for victims in Behavior incidents.
- The related incident date must be on or after the first instructional day of the selected calendar.
- The related incident date must be on or before the Effective Date selected on the extract editor.
- The selected Role must be one of the following: V1, V2, V3, V4, or V5.

## Report Editor

Field	Description
<b>Submission Code for File Name</b>	The report naming convention based on the submission time frame of the report.
<b>Extract Type</b>	19 CIRS Victims
<b>Effective Date</b>	The date from which data is pulled for the report.
<b>Format</b>	Determines the format for the report. Use <b>State Submission</b> when submitting the final data. Use <b>HTML</b> for data review and testing.

Field	Description
<b>Report Legal Identities</b>	When this checkbox is marked, Campus reports the legal name entered on the Census > People > Identities tab. If only one part of the Protected Identity Information is entered, that part reports and the other name fields report blank. For example, if the Legal First Name is entered but the middle and last name fields are empty, then only the first name reports and the middle and last names report blank. ▶ <a href="#">Click here to expand...</a>
<b>Select Calendars</b>	The calendar(s) from which data is pulled for the report. This option is only available when you select <i>HTML</i> for the <b>File Format</b> and can assist you with verifying data for individual calendars.
<b>Generate Report Submit to Batch</b>	Users have the option of submitting the report request to the batch queue by clicking <b>Submit to Batch</b> instead of <b>Generate Extract</b> . This process allows larger reports to generate in the background without disrupting the use of Campus.
