PATH: *WA State Reporting > Student Special Education (K)*

This report gathers program information unique to the Special Education Program from information stored for the student in Washington's custom [WA BIE Sped Tab](#).

Student Special Education (K) Extract Editor

Report Logic

- Records report for each WA BIE Sped Tab record entered where the sped record is or has been active at any time based on the Sped Start Date and the Sped Exit Date.
- Records do not report if there is not a Sped Start Date entered.
- Calendars, Grades and Enrollments marked as State Exclude will not be included in the extract.
- Enrollments marked as No Show are also not included.

Generating the Report

To generate the report of the Student Special Education (File K) Extract:

1. Enter an **As of Date** in *mmd/yyyy* format or by clicking the calendar icon and selecting a date.

2. Select which students will be included in the report:
 1. **Grade** - Select which grades will be reported.
 2. **Ad Hoc Filter** - Select an Ad hoc filter to further narrow report results.
3. Select the **Format** in which the report should be generated. Options include CSV and HTML.
4. Select the **Calendar(s)** to be included in the report.
5. Click **Generate Report** to generate the report in the indicated format or **Submit to Batch** to schedule when the report will generate.

Users have the option of submitting report request to the batch queue by clicking **Submit to Batch** instead of Generate Extract. This process will allow larger reports to generate in the background, without disrupting the use of Campus. The generated extract is available in the Process Inbox For more information about submitting a report to the batch queue, see the [Batch Queue](#) article.

Only the header row will report if there are no records reported in the extract.
