PATH: *WA State Reporting > Student Absence (N)*

The Student Absence (N) extract captures daily absence information for each student who is absent from seat-time classes. Each absence associated with the student served in the reporting district for the current school year returns a record.

Report Logic

Students who are or were enrolled in a State Grade Level of PK, K1, K2, or 1-12 at any time between the calendar Start Date and the As of Date entered will report a record for each Absence Code on each date of Absence.

A reportable absence must be mapped to an Attendance Status of Absent and have an Attendance Excuse of either Excused or Unexcused to report.

Full Day and Partial Day Absences

- If a student is absent for at least 50% or more of the scheduled, reportable periods on the day reported, a code of UF (Unexcused Full Day) reports if the student is marked as Unexcused Absent or EF (Excused Full Day) if marked as Excused Absent.
- If a student is absent for less than 50% or more of the scheduled, reportable periods on the day reported, a code of UP (Unexcused Partial Day) reports if the student is marked as Unexcused Absent or EP (Excused Partial Day) if marked as Excused Absent.

Excused Absences

- If a student is absent for ALL of the courses/sections in which he/she is enrolled due [attendance code](#) mapped to a valid excused absence, EF reports
- If a student is absent for only some of the courses/sections in which he/she is enrolled due to an [attendance code](#) mapped to a valid excused absence, EP reports.
- Valid Excused absences include approved activity/program, illness, family emergency, religious/cultural event, court related, homeless status related, suspension/expulsion and principal/parent approved activity.

Unexcused Absences

- Any absence from school is unexcused unless it meets one of the state's criteria above for an excused absence.

Generating the Report

1. Enter an **As of Date** in *mmdyyyy* format or by clicking the calendar icon and selecting a date. Records will report between the calendar Start Date and the As of Date.
2. Select the **Format** in which the extract will generate. Select State Format: Tab Delimited when submitting to the State; otherwise, select CSV or HTML to review the data before submission.
3. Select the **calendar(s)** to include in the extract.
4. Click **Generate Extract** to generate the report in the indicated format or **Submit to Batch** to schedule when the report will generate.

Users have the option of submitting report request to the batch queue by clicking **Submit to Batch** instead of Generate Extract. This process will allow larger reports to generate in the background, without disrupting the use of Campus. The generated extract is available in the Process Inbox For more information about submitting a report to the batch queue, see the [Batch Queue](#) article.

Only the header row will report if there are no records reported in the extract.
