Instruction Mode Definitions

The Instruction Mode tool allows districts to record the learning environment for students and to track how assignments are being used based on the CARES Act Participation field.

- A new record needs to be created for each change in the student's Instruction Mode.
- Overlapping records within the same school are not allowed.
- Overlapping records in different school are allowed.

See the core [Instruction Mode](#) article for information on necessary tool rights, available Ad hoc fields, and guidance on adding and printing Instruction Mode records.

Instruction Mode Detail

A Learning Modality of In-Person, Remote, or Hybrid should be created for a student's typical mode of instruction over the time period. If a student should receive P-EBT funds during the date range the P-EBT Instruction Mode field can be populated for the dates to be counted in the P-EBT Upload.
