WDE-684 TCS Extract Editor

Data Submission

The collection window for both the Student and the Section extracts runs from early to mid October. It is recommended that each school review the data prior to submission in an effort to correct serious errors before the deadline.

Report Logic

Records only report for enrollments in the selected calendar(s).

The following logic applies to the **Student** extract:

- A student record reports based on **Subsequent Year Reporting** logic when the following criteria are met:
 - Populates a record for any student's enrollment with a Subsequent Year Reporting date falls on or within the extract Effective Date and the student's Primary enrollment Start Date.
 - There may be multiple records reported if the Date is entered on multiple enrollments.
 - To report, an enrollment must not be marked as Exclude, or in a Grade Level marked as Exclude.
 - If the student has a Subsequent Year Reporting value on an enrollment in a school that no longer exists, a record is reported in the year in which the Subsequent Year Reporting date falls. Only one record is reported per qualifying enrollment.

The following logic applies to the **Section Enrollment** extract:

- Only one record reports per section enrollment, unless the student has exited and re-entered the section. Multiple records report if the student exited the section in one enrollment and re-entered in a different enrollment.
- The State Code field must be populated with a Course Number in the [Courses Editor](#) in order to appear in the section report. All classes with course state codes from the beginning of the school year up to the date selected in the extract editor will report.
- If a teacher has more than district assignment, the teacher will only be reported once.
- Course Section roster start and end dates are first used to determine inclusion in the report.
 - If the roster start and end date fields are null, the student's enrollment start and end dates will be used. If there are multiple enrollments for the student, the enrollment record that starts between or on the start and end date of the roster will be used.
 - If the enrollment start or end dates fall outside of the date range, term start and end dates will be used.
- In order to to be included in this report, the following characteristics must be met:
 - Roster Start Date must be Null or on or before the Effective Date of the report.
 - The Course/Section Term Start Date must be on or before the Effective Date of the report.
 - The student must be enrolled in the Calendar and Year in which the Course/Section exists and the enrollment Start Date must be on or before the Effective Date of the report.
 - A student will be included in the report if there is a date entered in the Subsequent Year Reporting field of Enrollments in any enrollment from the previous year if the Subsequent Year Reporting date is:
 - On or before the enrollment causing the record to populate,
 - On or after the Start Date of the current year calendar and
 - On or before the End Date of the current year calendar. Each record that meets these requirements will populate a record.
 - Students marked as No Show or State Exclude or those enrolled in a Grade Level marked as Exclude will not be included in the report. With the release of Campus.1717. Courses marked as State Exclude are not reported.

The following logic applies to the **Special Education** extract:

- This extract reports one record per primary enrollment that is active during the student's IEP.
 - A record will report for any student who has a locked IEP in WY print format active on the extract Effective Date and the Enrollment Start Date.
 - A record will report for a student if the IEP is locked, has a Start Date on or before the Effective Date and an End Date on or after the student's Enrollment Start Date.
- A student record will report based on **Subsequent Year Reporting** logic when all of the following criteria are met. Students included as a result of their Subsequent Year Reporting date must report IEP fields based on the most recent, locked IEP, which will be the IEP in the previous calendar year.
 - The student's most recent previous year Enrollment not in a Calendar marked Exclude has a Subsequent Year Reporting date that falls on or within the extract Effective Date and the Calendar's Start Date.
 - The student has a locked IEP or Evaluation during the latest prior year Enrollment in a Calendar not marked Exclude.
 - The student's locked IEP has a Start Date on or before the extract Effective Date and an End Date on or after the student's Enrollment Start Date.
 - The student has a locked Evaluation in a format of wyEval active during the date range of the extract Effective Date and the Enrollment Start Date.
 - The student does not have a current year IEP or Eval active during the date range of the extract Effective Date and the Enrollment Start Date.
 - If the student meets the criteria for populating a record for their enrollment with a valid Subsequent Year Reporting Date on their prior enrollment, has a Primary enrollment in the following year that is active between the calendar Start Date and the extract Effective Date and there is not a locked IEP in a WY format associated with the enrollment, a Subsequent Year Record will not report for the student.
 - Additionally, if the student's Program Exit Date is before the last instructional day of the enrollment's calendar, a Subsequent Year Record will not report.
- Only one record will report for each student. If the student has a locked IEP in the current year and also has an eligible Subsequent Year Enrollment date, a record will report for the current year's locked IEP.
- Records will not report for students with Enrollments marked as State Exclude or enrolled in a Grade Level or Calendar marked as Exclude.
- Fields reported from the wyEval Evaluation will report from locked, initial evaluations active during the calendar year.
- If the student has a Special Ed Status of R or I, only the following fields report:
 - WISERID
 - StudentLastName
 - StudentFirstName
 - ResidentSchoolID
 - DistrictID
 - StudentOutOfStateTransfer

Report Editor Details

Editor Field	Description
Extract Type	The type of extract being generated. Options are: <ul style="list-style-type: none"> • Student: pulls information from student enrollments. • Section Enrollment: pulls details about a section of a course. • Special Education: pulls student special education information.
Report Student Legal Identities	If marked, Demographics fields report from Census > People > Identities > Active Identity > Protected Identity Information.
Include State Excluded Courses	Includes courses marked as State Exclude. (Section extract only)
Effective Date	The date for which data is pulled for the report. Behavior data will be reviewed for all students actively enrolled on this date.
Format	The format in which the report will generate. Options include State Format (CSV), HTML and XML. HTML and XML formats are used for data review and verification, while State Format should be used when submitting reports to the state.
Choose Grades	The grades that will be included in the report.
Ad hoc Filter	A list of pre-defined filters to indicate which students to include in the extract.
Show Student Data	This option only appears if the <i>Special Education</i> Extract Type and a Format of <i>HTML</i> are selected. Marking this checkbox causes several student identification fields to report at the end of the extract.
Calendars	The calendar(s) from which data is pulled for the report.

Generating the Extract

1. Select the **Extract Type** from the dropdown list. Options are **Student**, **Section Enrollment**, and **Special Education**.
2. Indicate if Demographics fields should **Report Student Legal Identities**.
3. Mark **Include State Excluded Courses** to include courses that are marked as State Exclude but otherwise meet logic requirements.
4. Enter the **Effective Date** of the report in *mmdyyy* format or by clicking the calendar icon.
5. Select the **Format** in which the report should be generated.
6. Select the **Grade Levels** to include in the report.
7. Select an **Ad hoc Filter** to limit results to a pre-defined filter.
8. If generating a *Special Education* extract in *HTML* format, indicate if the extract should **Show Student Data**.
9. Select the **Calendar(s)** to include in the report.
10. Click **Generate Extract** to generate the report in the indicated format or **Submit to Batch** to schedule when the report will generate.

Users have the option of submitting a request to the batch queue by clicking **Submit to Batch** instead of Generate Extract. This process allows larger reports to generate in the background, without disrupting the use of Campus. For more information about submitting a report to the batch

queue, see the [Batch Queue](#) article.

Student Lunch Options

Where no Carry-Over is in place, the student has an eligibility record in the current calendar year and the extract Effective Date is on or before 30 instructional days into the current year, the eligibility status from the eligibility record in the current year must take precedence over any eligibility record in the prior year.

If the student's enrollment has an End Date before the extract Effective Date, will report the eligibility status (**F** or **R**) of the student's eligibility record that was active during their enrollment.

In all other instances besides those described above, reports as **N**.

The following logic is true when a student record reports as a result of a **Subsequent Year Reporting** date:

- Reports from the most recent School History record with an Effective Date on or before the

student's enrollment End Date if an End Date is entered.

- If an End Date is not entered, reports from the most recent School History record with an Effective Date on or before the last instructional day in the enrollment's calendar.
- For all students in the school, when the Start Year is on or after the Provision Base Year and the Calendar End Date is on or before the Provision End Year on the School History record, will report as **X** if National School Lunch Program is no marked and as **S** if National School Lunch Program is marked, Provision is 2, 3, or 5 and a Provision Type of NSLP is marked. If neither of these situations are true, reports based on the above Lunch Status table.
