Search Terms: Ed-Fi Configuration

The Ed-Fi Configuration tool allows you to setup and manage the data connection between Campus and the Ed-Fi system, and determine resource preferences.

Tool	Description
Connection	The Connection tool is used to establish a data connection between Campus and the Ed-Fi system.
Certificates	Allows users to import certificates needed for Ed-Fi that Campus does not support.
Reports	Generates a report of Ed-Fi configurations and related details.
Resource Preferences v2.0 v3.X	Resource Preferences determine which information is sent to Ed-Fi. v2.0 is for customers using the previous version of Ed-Fi. v3.X is for customers using the current version of Ed-Fi.
