The Student Profile tab displays a current snapshot of the student's grades, attendance data, behavior incidents and course work. This is a read-only tab, but users (counselors, school administrators, etc.) can view detailed information from this tab.

Student data is organized into cards for each section - Census, In-Progress Grades, Attendance, Behavior and Student To Do. Data is accurate as of the current date.

Student Profile

To print this information, click the **View as PDF** button in the lower left-hand corner. This displays the current state of the Profile tab in PDF format. Current state means that whatever data is selected on the Profile tab at the time the PDF is generated, that data prints. If Attendance data for September is displayed, data for September is included in the PDF.

## Tool Rights

Full access to the Profile tab requires **R** rights to the following items.

- Student Information > General > **Profile**
- Student Information > General > **Profile > Attendance**
- Student Information > General > **Profile > Behavior**
- Student Information > General > **Profile > In-Progress Grades**
- Student Information > General > **Profile > Todo**

## Profile Information in Ad hoc Query Wizard

Student Profile displays information entered in other areas of the product. For that reason, fields that display on Student Profile are not available in Ad hoc under a Profile heading. However, fields for Student Demographics, Grades, Attendance and Behavior are available in the Query Wizard for the **Student Data Type** in the following folders:

- Student > Demographics
- Student > Census
- Student > Attendance
- Student > Behavior
- Student > Grades

## Student Census Information

A general summary of the student's address(es) and contact information, along with the student picture (if uploaded), display. Address information is from the student's [Household](#) tab, and can also be viewed from the student's [Summary](#) tab.

*Student Census Information*

When the district is using [Early Warning](#) to track a student's persistence towards graduation, the student's GRAD Score also displays in the Census information section.

## In-Progress Grades

In-Progress Grades are those scores or values that the student earns for courses in which the student is currently enrolled in the current calendar year. It includes assignments, grading tasks, standards, test scores, etc. There may be situations where scores are added for assignments, grading tasks, standards, tests, in a future term, which are also included in the In-Progress Grade value.

If the student is assigned a score for any of these items in the current term, a past term or a future term, it is included in the calculation of In-Progress Grades.

In-Progress Grades information displays for each course in which the student is actively enrolled. The courses must have grading tasks (with an active Term Mask) or standards assigned.

This section displays the student's Cumulative GPA, amount of credits earned and required, and whether the student is on track for graduation.

- Cumulative GPA values are found on the Grades tab. See the [GPA Calculations in Campus](#) for the actual calculation.
- Credit information is found on the [Student Transcript](#).
- Progress toward graduation is found on the [Academic Planning Progress](#) tab.
- Details for current grade information for currently scheduled courses can be viewed by clicking the scores related to grading tasks or the progress bar for standards.

## Attendance

View the student's [attendance record](#) for the entire year, the last 30 days from the current date, or the last seven days from the current date. The total number of absences for a full day and for a period display, as well as the total tardies by period. These attendance totals update to reflect which date option is selected.

If the student is not actively enrolled in the last 30 days or the last seven days, the earliest start date of enrollment is used to display attendance records. For example, if the current date is September 16, and the Last 7 Days option is selected, but the student's enrollment start date is September 14, only records and attendance totals from the 14th, 15th and 16th display.

When viewing the Year option, the date range displays the calendar of enrollment start and end dates. If a student's enrollment starts after the first day of school, the date range displays the start date of the student's enrollment through the end of the calendar.

The Date Range only displays if the current date is within the student's dates of enrollment.

This uses the Whole/Half Day calculation, using the Student Day Minutes and the Whole/Half Day Absent Minutes fields entered on the [Calendar](#). The calculation **DOES NOT** use state specific attendance calculations.
