PATH: [Grading and Standards](#) > [Reports](#) > [Course Standards Report](#)

The Course Standards Report includes four report types which list the standards that are associated with courses.

Course standards are created and managed in the [Standards Bank](#) and attached to a course on the [Courses Standards Tab](#). The report is generated based on the Year and School selected in the Campus Toolbar.

Report Type Option	Description	Image Example
Standards offered for each Course	This report type is sorted by Course # and lists each of the Standards attached to a Course.	Image 2
Courses offering each Standard	This report type is grouped by Curriculum Standard and lists each Course which has that Standard attached to it. Standards are sorted based on the order in which they were added to the Course Standards tab.	Image 3

Report Type Option	Description	Image Example
Standards not associated with Courses	This report type lists the Standards that are not currently assigned to any Courses but are aligned to the School selected in the Campus toolbar.	Image 4
Courses without associated Standards	This report type lists Courses which do not have Standards assigned.	Image 5

Generate the Course Standards Report

1. Indicate which **Report Type** to generate. The options are described in the table above.
2. Indicate if only **Power Standards** should be displayed in the report.
3. Indicate if the **Course GPA Weight** and/or **Term GPA Weight** values should be included. This option applies to the *Standards offered for each Course* and *Courses offering each Standard* options.
4. Click **Generate Report** to generate the report in PDF format in a new window.
